DUAL BACHELOR OF SCIENCE WITH A MAJOR IN NEUROSCIENCE AND MASTER OF SCIENCE IN THE FIELD OF BIOLOGICAL SCIENCES

The Department of Biological Sciences offers a dual bachelor of science with a major in neuroscience (https://bulletin.gwu.edu/arts-sciences/biological-sciences/ba-neuroscience/) and master of science in the field of biological sciences (https://bulletin.gwu.edu/arts-sciences/biological-sciences/ms/) degree program. The program allows students to take 6 graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's degree.

Students interested in the dual degree program should confer with the department's graduate advisor early in their junior year. Visit the program website (https://biology.columbian.gwu.edu/undergraduate-degree-programs/) for additional information.
