ABOUT THE UNIVERSITY

George Washington was determined to have a great national university in the nation’s capital. His hope was that students from all parts of the country would gain a first-hand knowledge of the practice as well as the theory of republican government while being instructed in the arts and sciences. He bequeathed 50 shares of The Potomac Company “towards the endowment of a University to be established within the limits of the District of Columbia, under the auspices of the General Government, if that government should incline to extend a fostering hand towards it.” Despite Washington's intentions, The Potomac Company folded and Congress never extended a “fostering hand,” so the University did not take shape until a group of Baptist clergymen led by Reverend Luther Rice took up the cause. They raised funds for the purchase of a site and petitioned Congress for a charter. Congress insisted on giving the institution a nonsectarian charter stating “That persons of every religious denomination shall be capable of being elected Trustees; nor shall any person, either as President, Professor, Tutor, or pupil, be refused admittance into said College, or denied any of the privileges, immunities, or advantages thereof, for or on account of his sentiments in matters of religion.”

Columbian College, as it was originally named, took up residence on College Hill, a 46-acre tract between the present 14th and 15th Streets extending from Florida Avenue to Columbia Road. The name of the institution was changed in 1873 to Columbian University and in 1904 to The George Washington University.

In 1912, the University purchased 2023 G Street and rented 2024 Street, NW, establishing what would become its Foggy Bottom campus. Today, more than 100 buildings are situated on 43 acres in the heart of Washington, DC, bordered by the White House, John F. Kennedy Center for the Performing Arts, State Department, and World Bank, as well as numerous federal agencies and national galleries and museums.

GW’s Virginia Science and Technology Campus (http://virginia.gwu.edu/), initiated for graduate studies, research projects, and professional development programs, is located along the high-tech corridor on Route 7, just to the west of Route 28, in Loudoun County. In 1998, GW established The George Washington University at Mount Vernon College; the Mount Vernon Campus (http://www.gwu.edu/mount-vernon-campus/) is on Foxhall Road in Northwest Washington.

The University’s enrollments total approximately 27,800 students, of which about 12,000 are undergraduate students, 15,220 are graduate and professional students, and 580 are non-degree students. GW students come from all 50 states, Washington, DC, Guam, Puerto Rico, Virgin Islands, and 139 countries.
