BACHELOR OF ARTS WITH A MAJOR IN ANTHROPOLOGY

If you’re looking to immerse yourself in the study of human difference and diversity, a GW Anthropology degree will signify that you can synthesize diverse types of data about human beings in ways that are highly sought after in a variety of careers. Graduates have gone on to successful careers in education, health care, international development, business, the performing arts, and research.

Inside the classroom, you’ll learn from an engaged community of professors and researchers about human origins and anatomy, the broad range of approaches to gender, social class, race, material culture, and linguistic variation. Outside the classroom, you’ll have access to one of the world’s greatest collections of hominoid fossils and skeletal specimens through our partnership with the Smithsonian Institution’s National Museum of Natural History.

GENERAL EDUCATION

In addition to the University General Education Requirement (http://bulletin.gwu.edu/university-regulations/general-education/#text), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC (http://bulletin.gwu.edu/arts-sciences/gpac/). Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean’s Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (https://advising.columbian.gwu.edu/general-education-courses/).

Coursework for the University General Education Requirement is distributed as follows:

• Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
• Humanities—one approved course in the humanities that involves critical or creative thinking skills.
• Mathematics or Statistics—one approved course in either mathematics or statistics.
• Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
• Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

• Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
• Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
• Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
• Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
• Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
• Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in anthropology, archaeology, or biological anthropology, students must have a grade-point average of 3.5 or better in courses required for the major, register for 3 credits of ANTH 3995 Undergraduate Research, and write a paper of special distinction arising out of a program of directed reading or research. Students must confer with an advisor before beginning the work.

COMBINED PROGRAM

• Bachelor of Arts with a major in anthropology and Master of Arts in the field of anthropology (http://bulletin.gwu.edu/arts-sciences/anthropology/dual-ba-ma/)
