

DUAL BACHELOR OF SCIENCE WITH A MAJOR IN BIOLOGICAL ANTHROPOLOGY AND MASTER OF SCIENCE IN THE FIELD OF HUMAN PALEOBIOLOGY

The Department of Anthropology offers a dual bachelor of science with a major in biological anthropology (<http://bulletin.gwu.edu/arts-sciences/anthropology/bs-biological-anthropology/>) and master of science in the field of human paleobiology (<http://bulletin.gwu.edu/arts-sciences/human-paleobiology/ms/>) degree program. The program allows students to take 9 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the combined program should confer with their major advisor regarding the details of their course of study. Visit the program website (<https://anthropology.columbian.gwu.edu/combined-bachelorsmasters-programs/>) for additional information.
