COMBINED PROGRAM

REQUIREMENTS

The Department of Biological Sciences offers a combined Bachelor of Science/Master of Science degree program in the field of biological sciences. The program allows students to take a specified number of graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master’s degree.

Students interested in the combined degree program should confer with the department’s graduate advisor early in their junior year. For more information visit the program website (http://biology.columbian.gwu.edu/undergraduate-degree-programs-syllabi).
