

DUAL BACHELOR OF SCIENCE WITH A MAJOR IN CHEMISTRY AND MASTER OF SCIENCE IN THE FIELD OF ENVIRONMENTAL AND GREEN CHEMISTRY

The Department of Chemistry offers a dual bachelor of science with a major in chemistry (<http://bulletin.gwu.edu/arts-sciences/chemistry/ba/>) and master of science in the field of environmental and green chemistry (<http://bulletin.gwu.edu/arts-sciences/chemistry/environmental-green-chemistry-ms/>) degree program. The program allows students to take 6 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should consult the Department of Chemistry in their sophomore year. Visit the program website (<https://chemistry.columbian.gwu.edu/combined-bsms-environmental-green-chemistry/>) for additional information.
