MASTER OF SCIENCE IN THE FIELD OF ENVIRONMENTAL AND GREEN CHEMISTRY

Growing public awareness about the state of the environment, chemical product safety, and new chemical regulatory policies is driving demand for leaders who are able to understand the science underlying environmental challenges and thus develop innovative solutions. The Master of Science in Environmental and Green Chemistry, offered through GW’s Department of Chemistry, develops the experts needed with an interdisciplinary curriculum that fosters proficiency in evaluating the state of the environment and designing greener technologies.

Unlike many existing graduate programs in environmental chemistry, this unique 30-credit hour program places an emphasis on green chemistry—the design of new chemicals and chemical processes with minimal environmental impact. Students pursue five core focus areas: energy, environmental analytical chemistry, air/water chemistry, green chemical processing, and chemical toxicology. For a broader perspective, the curriculum can be tailored to students’ interests, and courses in public health, science policy, and business are encouraged. A capstone project enables students to apply the knowledge gained from other coursework and develop the interpersonal and communication skills needed to collaborate with scientists and laypeople alike.

Being in Washington, D.C. allows for unique opportunities, including proximity to a hotspot for green careers, and potential capstone partners such as the Environmental Protection Agency, Department of Energy, and Food and Drug Administration. Graduates will find employment as well-rounded chemists in government and the private sector, environmental and sustainability consultants, health professionals, new product developers, engineers, or project managers across industries and business sectors.

This is a STEM-designated degree program.

ADMISSIONS

Admission deadlines:
- Fall - April 1 (February 1 for applicants applying for assistantships/fellowships)
- Spring - October 1

Prerequisite requirements:
- Two semesters of general chemistry and two semesters of organic or inorganic chemistry required. One semester of quantitative and/or instrumental analysis recommended.

Standardized test requirements:
- General test of the GRE (ETS institution code 5246) required.

Minimum scores for the program are:
- Academic IELTS: an overall band score of 6.0 with no individual score below 5.0; or
- TOEFL: 550 on paper-based or 80 on Internet-based; or
- PTE Academic: 53

Recommendations required:
- Two (2) recommendations required.

Prior academic records:
- Transcripts are required from all colleges and universities attended, whether or not credit was earned, the program was completed, or the credit appears as transfer credit on another transcript. Unofficial transcripts from all colleges and universities attended must be uploaded to your online application. Official transcripts are required only of applicants who are offered admission.

Statement of purpose:
- In an essay of 250 - 500 words, state your purpose in undertaking graduate study in your chosen field. Include your academic objectives, research interests, and career plans. Also discuss your related qualifications, including collegiate, professional, and community activities, and any other substantial accomplishments not already mentioned on the application. If you are applying for an assistantship or fellowship, you should also describe any teaching experience you have had.

International applicants only:
- Please follow this link - https://graduate.admissions.gwu.edu/international-student-application-requirements - to review the International Applicant Information carefully for details on required documents, earlier deadlines for applicants requiring an I-20 or DS-2019 from GW.

For more information on the admission process, please visit the Columbian College of Arts and Sciences Frequently Asked Questions (http://columbian.gwu.edu/graduate/admissions/faqs/) page.
Supporting documents not submitted online should be mailed to:
Columbian College of Arts and Sciences – Graduate Admissions Office
The George Washington University
801 22nd Street NW, Phillips Hall 215
Washington DC 20052

Contact for questions:
askccas@gwu.edu ~ 202-994-6210 (phone) ~ 202-994-6213 (fax)
8:30 am - 5:30 pm, Monday through Friday

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (http://bulletin.gwu.edu/arts-sciences/#degreeregulationstext).

30 credits, including 18 credits in required courses and 12 credits in elective courses.
