MASTER OF SCIENCE IN THE FIELD OF APPLIED ECONOMICS

The master of science (MS) in applied economics provides students with the tools needed to succeed as economists in today's data-driven world. The program teaches students how to draw meaningful implications from economic data, to apply economic theory and quantitative methods to answer real-world policy questions, and to integrate economic analysis into their professional lives.

The program helps students develop the ability to communicate ideas through coursework, workshops, and intensive data and economic analysis. The program is offered both full- and part time to accommodate students' work schedules. Graduate certificate programs in areas such as data science, budget and public finance, accountancy, financial management, and digital marketing may be pursued simultaneously.

Graduates of the applied economics program are prepared for positions as economic analysts in government, private consulting firms, financial institutions, international organizations, and applied policy research institutions. Coursework integrating academic scholarship with hands-on research and data projects prepares graduates to enter the job market with proven skills to succeed as economists in today's data-driven world.

Program students come from the United States and around the world and are a mix of recent graduates and students with years of work experience.

The MS in applied economics is a STEM-designated program.

Visit the program website (https://economics.columbian.gwu.edu/ms-applied-economics/) for additional information.

ADMISSIONS

Admission deadlines: Fall - April 1 (February 1 for applicants who wish to be considered for a fellowship) Spring - October 1 Applications received after the deadline will be considered on a case-by-case basis.

Standardized test scores: GRE is not required.

Minimum scores for the program are:
- Academic IELTS: an overall band score of 6.0 with no individual score below 5.0;
- TOEFL: 550 on paper-based or 80 on Internet-based;
- PTE Academic: 53.

Recommendations: Two (2) recommendations required.

Prior academic records: Transcripts are required from all colleges and universities attended, whether or not credit was earned, the program was completed, or the credit appears as transfer credit on another transcript. Unofficial transcripts from all colleges and universities attended must be uploaded to your online application. Official transcripts are required only of applicants who are offered admission. If transcripts are in a language other than English, English language translations must be provided. The English translation alone should be uploaded into your application.

Statement of Purpose: In an essay of 500-1,000 words, state your purpose in undertaking graduate study in your chosen field. Include your academic objectives, research interests, and career plans. Also, please discuss your related qualifications, including collegiate, professional, and community activities, and any other substantial accomplishments not already mentioned on your application.

Prerequisite requirement: Successful completion of Introductory Macroeconomics and Introductory Microeconomics courses (with a grade of B or better), and one semester of college level calculus (B- grade or better).

International applicants only: Please review International Applicant Information (https://columbian.gwu.edu/international-graduate-applicants/) carefully for details on required documents, earlier deadlines for applicants requiring an I-20 or DS-2019 from GW, and English language requirements.

For additional information on the admissions process visit the Columbian College of Arts and Sciences Frequently Asked Questions (https://columbian.gwu.edu/graduate-admissions-faq/) page.

Supporting documents not submitted online should be mailed to:

12 credits in elective Economics (ECON) courses at the 6000 level or above selected in consultation with the program director.

Note: ECON 6217, ECON 6218, and ECON 6219 may not be used to fulfill the elective requirement. With program approval, students may select up to two graduate-level courses offered by the Trachtenberg School of Public Policy and Public Administration, School of Business, Milken Institute School of Public Health, and/or School of Engineering and Applied Science to fulfill the elective requirement. Courses in other graduate programs may meet this requirement subject to approval by the program director.

COMBINED PROGRAMS

Combined programs

- Dual Master of Science in the field of applied economics and Graduate Certificate in data science
- Dual Master of Science in the field of applied economics and Graduate Certificate in digital marketing and analytics
- Dual Master of Science in the field of applied economics and Graduate Certificate in environmental resource policy
- Dual Master of Science in the field of applied economics and Graduate Certificate in financial management
- Dual Master of Science in the field of applied economics and Graduate Certificate in geographical information systems
- Dual Master of Science in the field of applied economics and Graduate Certificate in sport management
- Dual Master of Science in the field of applied economics and Graduate Certificate in business analytics
