BACHELOR OF SCIENCE WITH A MAJOR IN ENVIRONMENTAL AND SUSTAINABILITY SCIENCE

OVERVIEW

The bachelor of science in environmental and sustainability science program equips students with a broad foundation in the sciences with which they can take advantage of important new quantitative skills in geospatial techniques and data science and develop a concentration in either Earth and environmental science or ecological management. Required coursework incorporates science courses from across the university, with elective options including Conservation Biology, Water Resources, Oceanography, and more. Through varied courses, internships, and undergraduate research, students gain experience in one of the fastest-growing career fields.

Program graduates are well prepared for competitive careers in natural resource management; environmental consulting and startups; sustainability planning and policy; and compliance-oriented agencies and departments of the environment at the local, state, and federal levels. The program is also beneficial for students planning to attend graduate programs in environmental science, ecological management, or sustainability planning and policy.

ADMISSIONS

For more information on the admission process, please visit the Office of Undergraduate Admissions website (https://undergraduate.admissions.gwu.edu/). Applications may be submitted via the Common Application (https://go.gwu.edu/commonapp/).

Supporting documents not submitted online should be mailed to:

Office of Undergraduate Admissions
The George Washington University
800 21st Street NW, Suite 100
Washington DC 20052

Contact for questions: gwadm@gwu.edu or 202-994-6040

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (http://bulletin.gwu.edu/arts-sciences/#degeregulationtext).

The program-specific curriculum:

</table>
18 credits in courses in the major taken at or above the 2000 level. A minimum of 12 of these credits should be within one of the two concentrations below and include at least one 3000-level course. The remaining two courses can be selected from the other concentration or from the “other upper level courses in the major” category below.

Earth and environmental science concentration

- **CHEM 2085** Environmental Chemistry
- **CHEM 3140** Geochemistry
- **GEOG 2136** Water Resources
- **GEOG 3105** Techniques of Spatial Analysis
- **GEOG 3108** Weather and Climate
- **GEOG 3128** Geomorphology and Natural Hazards
- **GEOG 3218** Arctic Systems
- **GEOL 2106** Oceanography
- **GEOL 2151** Introduction to Paleontology
- **GEOL 3138** Hydrogeology
- **GEOL 3191** Geology of Energy Resources

Ecological management concentration

- **ANTH 3407** Conservation in a Changing World: Human and Animal Behavior
- **BISC 2010** Global Change Biology
- **BISC 2401** Biodiversity in A Changing World
- **BISC 2454** General Ecology
- **BISC 3454** Marine Ecology
- **BISC 3459** Field Biology
- **BISC 3460W** Conservation Biology
- **BISC 3464** Plant-Animal Interactions
- **BISC 3464** Ecology and Evolution of Societies
- **GEOG 2129W** Biogeography
- **GEOG 3132** Environmental Quality and Management

Other upper-level courses in the major**

- **ECON 2136** Environmental and Natural Resource Economics
- **GEOG 3105** Techniques of Spatial Analysis
- **GEOG 3106** Intermediate Geographic Information Systems
- **GEOG 3107** Introduction to Remote Sensing
- **GEOG 3193** Environmental Law and Policy
- **GEOG 4309** GIS for Emergency Management
- **PHIL 2281** Philosophy of the Environment
- **PPPA 2701** Sustainability and Environmental Policy
- **PUBH 3132** Health and Environment

*BISC 3459 and GEOG 3128 cannot be double counted as concentration courses if already used to fulfill the upper-level major requirement.

**May be used to fulfill the total number of required credits in the major.

**GENERAL EDUCATION**

In addition to the University General Education Requirement (http://bulletin.gwu.edu/university-regulations/general-education/), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication (G-PAC) (http://bulletin.gwu.edu/arts-sciences/gpac/) as well as CCAS 1001. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

**Coursework for the University General Education Requirement is distributed as follows:**

- Writing—4 credits in UW 1020 University Writing and 6 credits distributed over at least two writing in the discipline (WID) courses taken in separate semesters. WID courses are designated by a “W” appended to the course number.
- Humanities—one approved humanities course that involves critical thinking skills.
- Mathematics or statistics—one approved course in either mathematics or statistics.
- Natural or physical science—one approved laboratory course that employs the process of scientific inquiry.
• Social Sciences—two approved courses in the social sciences that employ critical thinking, quantitative reasoning, or scientific reasoning.

Coursework for the CCAS G-PAC requirement is distributed as follows:

• Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.

• Global or cross-cultural perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.

• Local or civic engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.

• Oral communication—one approved course in oral communication.

• Natural or physical science—one additional approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).

• Humanities—one additional approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).

• CCAS 1001 First-Year Experience

Certain courses are approved to fulfill GPAC requirements in more than one category.

Courses taken in fulfillment of G-PAC requirements may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

Lists of approved courses in the above categories are included on each undergraduate major’s (http://bulletin.gwu.edu/arts-sciences/#majorstext) page in this Bulletin.
