

MASTER OF SCIENCE IN THE FIELD OF HUMAN PALEOBIOLOGY

Students enrolled in the master of science in human paleobiology program investigate the origins and evolution of humankind through interdisciplinary research using the latest instrumentation.

The STEM-designated program works in tandem with the Department of Anthropology's Center for the Advanced Study of Human Paleobiology (<http://cashp.columbian.gwu.edu/>) and incorporates faculty from the GW Departments of Biological Sciences; Speech, Language and Hearing Sciences; and Anatomy and Regenerative Biology. MS students also benefit from the program's ties to the Smithsonian Institution's Human Origins Program and other research centers in the greater Washington, D.C., area.

Master's level coursework includes small-group seminars, original research in our state-of-the-art facilities and two laboratory rotations or fieldwork (<https://anthropology.columbian.gwu.edu/fieldwork/>) at institutions outside of GW.

Visit the program website (<https://anthropology.columbian.gwu.edu/ms-human-paleobiology/>) for additional information.

ADMISSIONS

Admission Fall - February 1 deadlines:

Standardized test scores: The Test of English as a Foreign Language (TOEFL), the academic International English Language Testing System (IELTS), or the PTE Academic is required of all applicants except those who hold a bachelor's, master's, or doctoral degree from a college or university in the United States or from an institution located in a country in which English is the official language, provided English was the language of instruction.

Minimum scores for the program are:

- Academic IELTS: an overall band score of 6.0 with no individual score below 5.0; or

- TOEFL: 550 on paper-based or 80 on Internet-based; or

- PTE Academic: 53

Two (2) recommendations required:

Prerequisite A bachelor's degree in anthropology, biological requirements sciences, geological sciences, psychology, or other cognate discipline from an accredited college or university. Advanced undergraduate coursework in one or more of the following subjects is desirable: biology, chemistry, biochemistry, physics, geoscience, and calculus.

Prior academic records: Transcripts are required from all colleges and universities attended, whether or not credit was earned, the program was completed, or the credit appears as transfer credit on another transcript. Unofficial transcripts from all colleges and universities attended must be uploaded to your online application. Official transcripts are required only of applicants who are offered admission. If transcripts are in a language other than English, English language translations must be provided. The English translation alone should be uploaded into your application.

Statement of purpose: In an essay of 250 - 500 words, state your purpose in undertaking graduate study in your chosen field. Include your academic objectives, research interests, and career plans. Also discuss your related qualifications, including collegiate, professional, and community activities, and any other substantial accomplishments not already mentioned on the application.

International applicants: Please review International Applicant Information (<https://columbian.gwu.edu/international-graduate-applicants> (<https://columbian.gwu.edu/international-graduate-applicants/>)) carefully for details on required documents, earlier deadlines for applicants requiring an I-20 or DS-2019 from GW, and English language requirements.

For more information on the admission process, please visit the Columbian College of Arts and Sciences Frequently Asked Questions (<http://columbian.gwu.edu/graduate/admissions/faqs/>) page.

Supporting documents not submitted online should be mailed to:

Columbian College of Arts and Sciences - Graduate Admissions Office
The George Washington University
801 22nd Street NW, Phillips Hall 215
Washington DC 20052

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationstext>).

36 credits in a program developed in consultation with the advisor.

Code	Title	Credits
Required		
ANTH 6413	Analytical Methods in Human Evolutionary Studies	
HOMP 6202	Lab Techniques: Paleoanthropology *	
HOMP 6203	Ethics and Professional Practice I	
ANTH 6801	Paleolithic Archaeology	
or HOMP 6201	Hominid Paleobiology	
ANTH 6407	Anthropological Genetics (or 3000 level courses taken for graduate credit, or other approved course)	
or ANTH 3411	Primatology	
or ANTH 3413	Evolution of the Human Brain	
or ANTH 6404	The Evolution of Primate Life Histories	
or BISC 6206	Current Topics in Evolutionary Ecology	
Electives		
17 to 19 credits in elective courses. Courses should be selected in consultation with the faculty advisor, and may include a combination of the following: independent laboratory or field-based research; a field course; relevant courses in Anatomy, Anthropology, Biological Sciences, Geography, Geology, Human Paleobiology, Psychology, and Speech, Language, and Hearing Science available at GW; and/or relevant courses from the Consortium of Universities of the Washington Metropolitan Area.		
Thesis		
HOMP 6999	Thesis Research (taken for 6 credits)	

*In order to maintain a 9-credit per semester courseload, students register for 1 to 3 credits in HOMP 6202, depending on the number of credits taken in the other courses for which they are concurrently enrolled.
