MASTER OF SCIENCE IN THE FIELD OF HUMAN PALEOBIOLOGY

Students enrolled in the Master of Science in Human Paleobiology program investigate the origins and evolution of humankind through interdisciplinary research using the latest instrumentation.

The STEM-designated program works in tandem with the Anthropology Department's Center for the Advanced Study of Human Paleobiology (http://cashp.columbian.gwu.edu/) and incorporates faculty from the GW Departments of Biological Sciences; Speech, Language and Hearing Sciences; and Anatomy and Regenerative Biology. MS students also benefit from the program's ties to the Smithsonian Institution's Human Origins Program and other research centers in the greater Washington, D.C., area.

Master's level coursework includes small-group seminars, original research in our state-of-the-art facilities and two laboratory rotations or fieldwork (https://anthropology.columbian.gwu.edu/fieldwork/) at institutions outside of GW.

ADMISSIONS

Admission deadlines:
- Fall – February 1

Standardized test scores: The Test of English as a Foreign Language (TOEFL), the academic International English Language Testing System (IELTS), or the PTE Academic is required of all applicants except those who hold a bachelor’s, master’s, or doctoral degree from a college or university in the United States or from an institution located in a country in which English is the official language, provided English was the language of instruction.

Minimum scores for the program are:
- Academic IELTS: an overall band score of 6.0 with no individual score below 5.0; or
- TOEFL: 550 on paper-based or 80 on Internet-based; or
- PTE Academic: 53

Recommendation requirements:
- Two (2) recommendations

Prerequisite: A bachelor's degree in anthropology, biological sciences, geological sciences, psychology, or other cognate discipline from an accredited college or university. Advanced undergraduate coursework in one or more of the following subjects is desirable: biology, chemistry, biochemistry, physics, geoscience, and calculus.

Prior academic records: Transcripts are required from all colleges and universities attended, whether or not credit was earned, the program was completed, or the credit appears as transfer credit on another transcript. Unofficial transcripts from all colleges and universities attended must be uploaded to your online application. Official transcripts are required only of applicants who are offered admission. If transcripts are in a language other than English, English language translations must be provided. The English translation alone should be uploaded into your application.

Statement of purpose: In an essay of 250 - 500 words, state your purpose in undertaking graduate study in your chosen field. Include your academic objectives, research interests, and career plans. Also discuss your related qualifications, including collegiate, professional, and community activities, and any other substantial accomplishments not already mentioned on the application.

International applicants only: Please review International Applicant Information carefully for details on required documents and English language requirements.

For more information on the admission process, please visit the Columbian College of Arts and Sciences Frequently Asked Questions (http://columbian.gwu.edu/graduate/admissions/faqs/) page.

Supporting documents not submitted online should be mailed to:
- Columbian College of Arts and Sciences - Graduate Admissions Office
- The George Washington University
- 801 22nd Street NW, Phillips Hall 107
- Washington DC 20052

Contact for questions:
- askccas@gwu.edu (askccas@gwu.edu) ~ 202.994.6210 (phone)
- ~ 202.994.6213 (fax)
- 8:30 am - 5:00 pm, Monday through Friday

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (http://bulletin.gwu.edu/arts-sciences/#degreeregulationstext).

36 credits in a program developed in consultation with the advisor.
