MASTER OF SCIENCE IN THE FIELD **OF HUMAN PALEOBIOLOGY (STEM)**

Students enrolled in the master of science in human paleobiology program investigate the origins and evolution of humankind through interdisciplinary research using the latest instrumentation.

The STEM-designated program works in tandem with the Department of Anthropology's Center for the Advanced Study of Human Paleobiology (http://cashp.columbian.gwu.edu/) and incorporates faculty from the GW Departments of Biological Sciences; Speech, Language, and Hearing Sciences; and Anatomy and Regenerative Biology. MS students also benefit from the program's ties to the Smithsonian Institution's Human Origins Program and other research centers in the greater Washington, DC, area.

Master's level coursework includes small-group seminars, original research in our state-of-the-art facilities, and two laboratory rotations or fieldwork (https://anthropology.columbian.gwu.edu/ fieldwork/) at institutions outside of GW.

This is a STEM designated program.

Visit the program website (https:// anthropology.columbian.gwu.edu/ms-human-paleobiology/) for additional information.

ADMISSIONS

Admission Fall - April 1 (February 1 for priority fellowship deadlines: consideration) Standardized The Test of English as a Foreign Language (TOEFL), test scores: the academic International English Language Testing System (IELTS), or the PTE Academic is required of all applicants except those who hold a bachelor's, master's, or doctoral degree from a college or university in the United States or from an institution located in a country in which English is the official language, provided English was the language of instruction. Minimum scores for the program are: - Academic IELTS: an overall band score of 6.0 with no individual score below 5.0; or - TOEFL: 550 on paper-based or 80 on Internet-

based; or

- PTE Academic: 53

Recommendations (2) recommendations required:

Prerequisite A bachelor's degree in anthropology, biological requirements sciences, geological sciences, psychology, or

other cognate discipline from an accredited college or university. Advanced undergraduate coursework in one or more of the following subjects is desirable: biology, chemistry, biochemistry, physics, geoscience, and calculus.

Transcripts are required from all colleges and universities attended, whether or not credit academic records: was earned, the program was completed, or the credit appears as transfer credit on another transcript. Unofficial transcripts from all colleges and universities attended must be uploaded to your online application. Official transcripts are required only of applicants who are offered admission. If transcripts are in a language other than English, English language translations must be provided. The English translation alone should be uploaded into your application.

Statement of In an essay of 250 - 500 words, state your purpose in undertaking graduate study in your chosen purpose: field. Include your academic objectives, research interests, and career plans. Also discuss your related qualifications, including collegiate, professional, and community activities, and any other substantial accomplishments not already mentioned on the application.

International Please review International Applicant Information (https://columbian.gwu.edu/internationalapplicants

only: graduate-applicants (https://columbian.gwu.edu/ international-graduate-applicants/)) carefully for details on required documents, earlier deadlines for applicants requiring an I-20 or DS-2019 from GW, and English language requirements.

Supporting documents not submitted online should be mailed to:

Columbian College of Arts and Sciences, Office of Graduate Studies The George Washington University 801 22nd Street NW, Phillips Hall 107 Washington DC 20052

For additional information about the admissions process visit the Columbian College of Arts and Sciences Frequently Asked Questions (https://columbian.gwu.edu/graduate-admissionsfaq/) page.

REQUIREMENTS

Code	Title	Credits
Required		
Core courses		
HOMP 6202	Lab Techniques: Paleoanthropology *	
HOMP 6203	Ethics and Professional Practice I	

ANTH 6413 Analytical Methods in Human Evolutionary Studies

At least one paleobiology core course selected from the following:		
HOMP 6201	Hominid Paleobiology	
ANTH 6801	Paleolithic Archaeology	
or HOMP 6201	Hominid Paleobiology	

At least one modern biology core course selected from the following:

ANTH 6403	Primate Behavior
ANTH 6404	The Evolution of Primate Life Histories
ANTH 6407	Anthropological Genetics
ANTH 6423	Evolution of the Human Brain

Electives

17 to 19 credits in elective courses. Courses should be selected in consultation with the faculty advisor, and may include a combination of the following: independent laboratory or fieldbased research; a field course; relevant courses in Anatomy, Anthropology, Biological Sciences, Geography, Geology, Human Paleobiology, Psychology, and Speech, Language, and Hearing Science available at GW; and/or relevant courses from the Consortium of Universities of the Washington Metropolitan Area.

Thesis

HOMP 6999 Thesis Research (taken for 6 credits)

*In order to maintain a 9-credit per semester courseload, students register for 1 to 3 credits in HOMP 6202, depending on the number of credits taken in the other courses for which they are concurrently enrolled.
