BACHELOR OF ARTS WITH A MAJOR IN PSYCHOLOGICAL AND BRAIN SCIENCES

GW’s BA in psychology program attracts students eager to develop research skills and solve issues within communities and societies, applying lessons learned in the classroom to real-world scenarios through learning and research. Program graduates are well-educated in a variety of topics, including abnormal, developmental, and social psychology, as well as cognitive neuroscience. During their tenure at GW students can work alongside faculty—or nearby research centers such as the National Institutes of Health and the National Science Foundation—on a range of health psychology and cultural diversity issues, leading to opportunities to present findings at local and national conferences. Beyond the classroom, program graduates have pursued career paths ranging from the more traditional path of psychiatry and social work to careers in management and public relations.

GENERAL EDUCATION

In addition to the University General Education Requirement (http://bulletin.gwu.edu/university-regulations/general-education/#text), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean’s Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (https://advising.columbian.gwu.edu/general-education-courses/).

Coursework for the University General Education Requirement is distributed as follows:

- **Writing**—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- **Humanities**—one approved course in the humanities that involves critical or creative thinking skills.
- **Mathematics or Statistics**—one approved course in either mathematics or statistics.
- **Natural or Physical Science**—one approved laboratory course that employs the process of scientific inquiry.
- **Social Sciences**—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- **Arts**—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- **Global or Cross-Cultural Perspective**—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- **Humanities**—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).

SPECIAL HONORS

In addition to meeting general requirements stated under University Regulations, to be admitted to the GWU Psychological & Brain Sciences (PBS) Undergraduate Honors Program, the student must 1) have taken at least five graded GWU PBS courses with a minimum PBS grade-point average (GPA) of 3.50, and a minimum GWU GPA of 3.00, and 2) submit a completed application and unofficial GWU transcript from the Registrar’s Office (which will have the student’s name on it) to the PBS Department within the first week of their senior year. In addition to meeting other University and Departmental requirements, to graduate with PBS Departmental Honors, the student must also 3) maintain the minimum GWU and PBS GPAs, 4) complete at least one semester of PSYC 3591 Supervised Research Internship or PSYC 4591 Independent Research, 5) complete PSYC 4997 Honors Seminar, and 6) complete a graduate-level (PSYC 8000s) PBS course.

COMBINED PROGRAM
