GRADUATE CERTIFICATE IN CLOUD, APPLICATIONS, AND INFORMATION TECHNOLOGY

The graduate certificate in cloud, applications and information technology program trains business leaders to learn, design, and implement cloud architecture and policies. Cloud-managed services such as Amazon Web Services (AWS), Microsoft Azure, and Google Cloud Platform (GCP) accelerate businesses’ capacity for innovation and enable agile navigation through today’s hypercompetitive business climate. Students acquire the skills to adeptly and securely deploy those services to help firms meet their needs.
