The School of Business offers a dual bachelor of business administration (http://bulletin.gwu.edu/business/undergraduate-programs/business-administration/) and master of science in the field of information systems technology (http://bulletin.gwu.edu/business/graduate-programs/information-systems-technology-ms/) degree program. The program allows students to take up to 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master’s degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department’s graduate adviser early in their junior year.

Visit the program website (https://business.gwu.edu/academics/programs/undergraduate/combined-degree-programs/bba-msist/) for additional information.
