

GRADUATE CERTIFICATE IN EDUCATIONAL TECHNOLOGY LEADERSHIP

Offered online, the graduate certificate in educational technology leadership is designed for individuals currently in leadership positions who lack formal instruction in educational technology and others who aspire to become leaders in an educational technology environment. The program provides students with a comprehensive focus on software and hardware systems and their evaluation, and strategic tools and techniques for successful implementation. Graduates can expect to have gained skills and knowledge with application across broad learning environments.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<https://gsehd.gwu.edu/programs/graduate-certificate-educational-leadership-technology>) for additional information.
