DOCTOR OF PHILOSOPHY IN THE FIELD OF COUNSELING

The doctor of philosophy in counseling degree program balances rigorous research with clinical work to graduate scholar practitioners. Graduates are prepared for a number of roles, such as teaching in universities, practicing in a variety of settings from directing high school counseling departments to leading county mental health treatment programs. The program offers challenging course work, practical experience at mental health sites, and the opportunity to train as supervisors at the Graduate School of Education and Human Development’s Community Counseling Service Center. Designed to be completed in four to five years, the program is unique in building students’ knowledge and capacity to conduct research, publish, provide clinical services, and educate at the graduate level. Instruction is provided in areas including trauma, human sexuality, child and adolescent development, grief and loss, substance abuse, multicultural counseling, as well as a deep knowledge of diagnosis, assessments, interventions, and treatment approaches. The program is accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP).

Specific admission requirements are shown on the Graduate Program Finder. (http://www.gwu.edu/all-graduate-programs)

Visit the program website (http://gsehd.gwu.edu/programs/counseling) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

A minimum of 69 credits, including 24 credits in core courses, 15 credits in research courses, 6 credits in human development courses, 9 credits in an area of specialization, 15 credits in dissertation courses, and successful completion of the comprehensive examination.

EDUC 8177 Assessment Engineering

Two of the following courses in human development:

HDEV 6129 Cultural Effects on Human Development
HDEV 8100 Issues and Special Topics in Human Development
HDEV 8241 Emotional and Cognitive Development
HDEV 8244 Adult and Aging Development
HDEV 8253 Work, Identity, and Adult Development

Area of specialization
9 credits in courses selected in consultation with program advisor

Dissertation

CNSL 8998  Predissertation Seminar

CNSL 8999  Dissertation Research (minimum 12 credits needed to complete requirement)

Approved dissertation proposal required

Successful completion of comprehensive exam required

*Prerequisite statistics courses must have been taken during the student’s master's degree program or must be completed prior to taking required advanced courses. For students who have not had an introductory statistics course, have not had such a course in recent years, or do not feel confident in their understanding and application of basic statistical techniques (i.e. through one-way analysis of variance), EDUC 6116 Introduction to Educational Statistics should be completed prior to enrolling in EDUC 8120 Group Comparison Designs and Analyses.
