

DOCTOR OF EDUCATION IN THE FIELD OF HUMAN AND ORGANIZATIONAL LEARNING

Human and organizational learning is an interdisciplinary field that offers mid- to senior-level professionals rigorous and diverse methods of scholarly practice and inquiry. The focus ranges from individual development to systems change through the core pillars of learning, leadership, and change. The doctor of education degree aims to develop cognitive flexibility through impactful and action-oriented practices and studies in relevant theories, concepts, and scholar/practitioner identity development.

The program focuses on the interrelationships among people and organizations, as well as on culture while utilizing systemic change processes. Theory, research, and practice are balanced throughout the curriculum. Students are encouraged to form learning communities to provide collective support, promote action learning, and model a learning culture.

DOCTORAL PROGRAM LEVEL B COURSES

Doctoral Program Level B Courses

GSEHD's Level B research methods courses are advanced courses in a specific research methodology. All GSEHD doctoral students are required to take at least one Level B course in the methodology of their dissertation. The courses listed below are approved to meet this requirement. EDUC 8120 Group Comparison Designs and Analyses, and EDUC 8122 Qualitative Research Methods, must be completed before enrolling in a Level B course.

Some programs require more than one Level B course. Some Level B courses are taken in a predetermined sequence; for this reason, students should check each course description for prerequisites, as courses in the sequence build on others. More information regarding the Level B course sequence is available in the GSEHD Doctoral Student Handbook; (<https://gsehd.gwu.edu/student-services/>) students can also consult their faculty advisor or research methods faculty (<https://gsehd.gwu.edu/directory/>) for additional guidance.
