

# GRADUATE CERTIFICATE IN AUTISM SPECTRUM DISORDERS

The certificate program is designed for individuals with a bachelor's or master's degree that are interested in focusing on a multi-intervention approach to instructing students with Autism Spectrum Disorders.

Graduates of this program will be able to more effectively address the following issues in working with children with Autism Spectrum Disorders: (1) academic achievement and study skills commensurate with their cognitive strength; this will provide the widest range of options of college and career choices, (2) social skills for navigating all of the environments in which they live, work, and play, and (3) problem-solving strategies that enable them to respond flexibly and successfully to challenging situations.
