DUAL BACHELOR OF SCIENCE
WITH A MAJOR IN CIVIL
ENGINEERING AND MASTER
OF SCIENCE IN THE FIELD OF
ENVIRONMENTAL ENGINEERING

The School of Engineering and Applied Science offers a
dual bachelor of science with a major in civil engineering
(http://bulletin.gwu.edu/engineering-applied-science/
civil-environmental-engineering/bs-civil-engineering/) and
master of science in the field of environmental engineering
(http://bulletin.gwu.edu/engineering-applied-science/civil-
environmental-engineering/ms/) degree program. The
program allows students to take 6 graduate credits as part
of their undergraduate program, thereby decreasing the
number of credits normally required for the master’s degree.
All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should
confer with the department’s graduate adviser early
in their junior year. Visit the program website (https://
www.cee.seas.gwu.edu/five-year-dual-degree-program-bs-
and-ms-civil-engineering/) for additional information.
