

MINOR IN LINGUISTICS

The linguistics minor at GW is designed to provide students with training in the analysis of both the formal structures and social functions of language. Through critical analysis of key readings and approaches in linguistics, students learn how to interpret linguistic data, and apply these analyses to theoretical debates and practical issues in both linguistics and related fields.

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses (6 credits in each of two groups of elective options).

Code	Title	Credits
