MASTER OF ARTS IN THE FIELD OF MIDDLE EAST STUDIES

The master of arts in the field of Middle East studies degree program combines a rigorous academic foundation with a strong professional orientation. Bridging the theory and practice of international affairs, the program prepares students for careers in government, the private sector, and international and nongovernmental organizations.

The curriculum includes a range of courses covering the history, politics, economics, international relations, and cultures of the societies and nations of the Middle East. In consultation with the program director, each student develops a program of study that, through a set of core courses, combines a broad overview of the region along with a more specialized field based on the student’s specific academic and career interests. In addition, completion of the program requires demonstrated oral and reading proficiency in a language of the Middle East region.

Visit the program website (https://elliott.gwu.edu/middle-east-studies/) for additional program information.

REQUIREMENTS

The following requirements must be fulfilled: 40 credits, including a 3-credit cornerstone course, 9 credits in core field courses, 3 credits in skills courses, a 4-credit capstone sequence, 12 credits in one professional specialization, and 9 credits in elective courses. In addition, students must fulfill a foreign language proficiency requirement (see below).

See note regarding special topics and skills courses, the capstone sequence, and LAW courses*.
