

GRADUATE CERTIFICATE IN HEALTH CARE CORPORATE COMPLIANCE

Designed for professionals working in the field of health care compliance or who aspire to work in the field, the 12-credit graduate certificate program provides students with a uniquely comprehensive view of health care corporate compliance. Drawing from GW's Department of Health Policy in the Milken Institute School of Public Health and a leading health care law firm in Washington, DC, the program offers education in health care laws and regulations as well as tools and strategies for creating effective corporate compliance programs. As the center of federal health care policy and enforcement, the District provides the ideal backdrop for study, allowing unparalleled access to experts in the field, including current and former regulators and policymakers, and other compliance professionals.

Specific admission requirements can be found on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

Visit the program website (<https://cps.gwu.edu/healthcare-compliance>) for additional information.
