

GRADUATE CERTIFICATE IN SUSTAINABLE LANDSCAPES

The graduate certificate in sustainable landscapes addresses the growing need for landscape and allied professionals with the knowledge and skills to design and/or manage ecologically sensitive, regenerative landscapes that are hospitable to humans and wildlife alike. Students acquire an understanding of best practices in landscape conservation and sustainability, adapted to the small-scale landscape.

Specific admission requirements can be found on the Graduate (<http://www.gwu.edu/all-graduate-programs>) Program Finder.

Visit the program website (<https://cps.gwu.edu/sustainable-landscapes>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 18 credits in required courses.

Code	Title	Credits
Required		
PSUS 6260	Introduction to Sustainable Design	
PSUS 6261	Ecology of the Built Environment	
PSUS 6262	Tools for Sustainable Design	
PSUS 6264	Native Plants I	
PSUS 6265	Native Plants II	
PSUS 6268	Sustainable Design Methods	
PSUS 6269	Sustenance and the Landscape	
PSUS 6266	Ecological Restoration	
PSUS 6270	Sustainable Design Charrette	

See CPS regulations (<http://bulletin.gwu.edu/professional-studies/#regulationstext>) for additional information regarding enrollment status and time limits.
