MASTER OF PUBLIC HEALTH IN THE FIELD OF BIOSTATISTICS

Program Director  H. Hoffman

Mission
The mission of the master of public health in the field of biostatistics degree program is to educate students in the methodological and quantitative skills needed to apply statistical methods to the biological, biomedical, and health services sciences. In addition to enhancing students’ capacity to think critically and creatively, the program deepens their commitment to improving the public’s health and to engaging in and promoting public service—qualities essential to biostatisticians and public health practitioners.

Goals
The goals of the biostatistics program are to ensure that graduates:

- Understand and adhere to high scientific standards for research.
- Understand how to apply statistical methods to biological/biomedical sciences and health services.
- Understand and follow guidelines for ethical treatment of research participants.
- Communicate research findings to a lay audience.
- Respect cultural diversity throughout all of the above.

Specific admission requirements are shown on the Graduate Program Finder. (http://www.gwu.edu/all-graduate-programs)

Visit the program website (https://publichealth.gwu.edu/programs/biostatistics-mph) for additional program information.

REQUIREMENTS

Program Prerequisites
All applicants must have completed two semesters of college-level calculus through calculus II with a minimum grade of B in order to be considered for admission.

MPH Requirements
The following requirements must be fulfilled: 45 credits, including 15 credits in core courses, 19 credits in program-specific courses, 7 credits in elective courses, 2 credits in a practicum, and 2 credits in a culminating experience.

grade-point average) of B (3.0) or above. SPH graduate certificate students can transfer as many credits as meet program requirements—up to 18 credits—to the MPH degree. Graduate certificate students wishing to transfer to a degree program may apply to do so via the online change of concentration petition after completion of three or more courses and a cumulative GPA of 3.0 or above. A grade of B or above is required for a course to be eligible for transfer.

*Students should begin planning their practicum during year 1.
