BACHELOR OF SCIENCE WITH A MAJOR IN NUTRITION, NUTRITION SCIENCE CONCENTRATION

Program Director: A. Sylvetsky

The mission of GW's nutrition program is to provide undergraduate students with an in-depth understanding of the scientific aspects of food and nutrition and the application of nutrition to public health. As a multi-faceted and cross-disciplinary field, encompassing chemistry, biology, physiology, psychology, and public health, the program lays the groundwork for integrating nutrition science across disciplines. Once they complete the program, students are well-prepared to develop, extend, and apply all aspects of nutrition to improve clinical practice and public health. Program graduates are employed in a variety of settings, including federal government agencies such as the USDA and FDA, nonprofit organizations, and advocacy groups, while others choose to pursue advanced degrees in the health sciences, dietetics, and/or public health.

Students in the nutrition program may select the nutrition science concentration, which is designed for those planning to pursue an advanced degree in dietetics and become a registered dietitian. Please note that as of 2024, it is required that students have a Master's degree to become a Registered Dietitian.

Visit the program website (https://publichealth.gwu.edu/content/nutrition-science-bs/) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 120 credits, including 26 credits in courses counting toward the University General Education Requirement, 34 credits in nutrition core courses, 30 credits in concentration-specific courses, 12 credits in approved guided elective courses, and 18 credits in general elective courses.

### Code | Title | Credits
---|---|---
**University General Education Requirement**
UW 1020 | University Writing | 
or HONR 1015 | Honors Seminar: UW 1020: Origins and Evolution of Modern Thought | 
6 credits in writing in the disciplines (WID) courses to be taken in at least two courses over two or more semesters. (The courses may also count in another category.) | 
One critical or creative analysis in the humanities course. | 
34 credits in required core courses. Students must maintain a minimum grade point average of 2.5 in the nutrition core requirements with a minimum grade of C- in each core course. | 
PUBH 1010 | First-Year Experience in Public Health | 
EXNS 1109 | Professional Foundations in Nutrition | 
EXNS 1110 | Applied Anatomy and Physiology I | 
EXNS 1111 | Applied Anatomy and Physiology II | 
CHEM 1110 | Fundamentals of Chemistry | 
EXNS 2119 | Introduction to Nutrition Science | 
EXNS 2120 | Assessment of Nutritional Status | 
EXNS 2123 | Nutrition and Chronic Disease | 
EXNS 2124 | Lifecycle Nutrition | 
EXNS 3111W | Exercise and Nutrition Sciences Research Methods | 
EXNS 4112 | Nutrition Senior Capstone Seminar | 
MATH 1127 | Introduction to Public Health and Health Services | 
PSYC 1001 | General Psychology | 
ANTH 1002 | Sociocultural Anthropology | 
or ANTH 1003 | Archaeology | 
or ANTH 1004 | Language in Culture and Society |
Bachelor of Science with a Major in Nutrition, Nutrition Science Concentration

Electives

30 credits in elective courses, including 12 credits in nutrition guided electives, selected in consultation with the advisor, and 18 credits in general elective courses. See the list of pre-approved guided electives for the BS in nutrition program requirements page.**

No more than 3 credits in Lifestyle, Sport, and Physical Activity (LSPA) courses may be counted toward the 120 credits required for the bachelor’s degree. LSPA courses count as general electives.

**See list of pre-approved guided electives (http://bulletin.gwu.edu/public-health/exercise-science/bs-nutrition/).
