

MILKEN INSTITUTE SCHOOL OF PUBLIC HEALTH

Dean L.R. Goldman

Associate Deans K. Horn, G.H. Taylor, P. Vigilance

Assistant Deans H. Klepac, M. Turner

Established in July 1997 as the School of Public Health and Health Services, the school brought together three longstanding university programs in the schools of medicine, business, and education. In 2014, the school was renamed Milken Institute School of Public Health (Milken Institute SPH) after receiving three gifts totaling \$80 million from the Milken Institute, the Sumner M. Redstone Charitable Foundation, and the Milken Family Foundation, the largest ever received by The George Washington University. The only school of public health in the nation's capital, Milken Institute SPH enrolls more than 1,800 students, who come from nearly every U.S. state and many other nations to pursue undergraduate, graduate, and doctoral-level degrees in public health. The student body is one of the most ethnically diverse among the nation's private schools of public health. Six departments form the school: Environmental and Occupational Health, Epidemiology and Biostatistics, Exercise and Nutrition Sciences, Global Health, Health Policy and Management, and Prevention and Community Health.

Degree Programs

The Milken Institute SPH offers the following degree programs:

- Bachelor of Science with majors in exercise science and public health
- Bachelor of Science with major in public health with joint Master of Public Health
- Master of Public Health in the fields of biostatistics; community oriented primary care; environmental health science and policy; epidemiology; global environmental health; global health epidemiology and disease control; global health program design, monitoring, and evaluation; global health policy; health policy; health promotion; maternal and child health; physical activity in public health; public health communication and marketing; and public health nutrition
- Master of Public Health: MPH@GW (online)
- Master of Science in the fields of biostatistics; epidemiology; exercise science with a concentration in strength and conditioning; health policy; management of health informatics and analytics and public health microbiology and emerging infectious diseases (Columbian College of Arts and Sciences confers the Masters of Science in biostatistics)
- Master of Health Administration; Master of Health Administration; MHA@GW (hybrid/executive program)
- Health Services Administration Specialist

- Special (Joint) Programs: Doctor of Medicine and Master of Public Health; Juris Doctor/Master of Laws in the field of law and Master of Public Health; Master of Arts in the field of international affairs and Master of Public Health; Master of Health Administration with a certificate in health care corporate compliance; Master of Public Health in the field of health policy with certificate in health care corporate compliance; Master of Science in Health Policy with a certificate in health care corporate compliance; Master of Science in Health Sciences in the field of physicians assistant and Master of Public Health;
- Doctor of Public Health in the fields of environmental and occupational health; global health; health behavior; and health policy
- Doctor of Philosophy in the fields of biostatistics; epidemiology; social and behavioral sciences in public health; and public policy & administration-health policy track (Columbian College of Arts and Sciences confers the Doctor of Philosophy in biostatistics and Trachtenberg School of Public Policy confers the Doctor of Philosophy in public policy and administration (health policy track))

Mission

Our mission is to provide the best public health educational experience incorporating our core values of scholarship and leadership, scientific rigor and policy analysis, and training to foster the next generation of thought leaders, practitioners, policy makers, and scientists who will transform public health worldwide, especially for underserved and poor populations.

Vision

As complex global health challenges continue to threaten our health and future, the Milken Institute SPH will be preeminent in training tomorrow's leaders for improving the public's health. We aspire to become one of the top five private schools of public health in the world.

Accreditation

The public health programs of the Milken Institute SPH are fully accredited by the Council on Education for Public Health (CEPH). In 2016, the Milken Institute SPH was awarded a seven-year accreditation through July 1, 2023. The program in health administration is fully accredited by the Commission on Accreditation of Healthcare Management Education (CAHME). Milken Institute SPH is a member of the Association of Schools and Programs of Public Health.

- Independent Study Course Requirements (p. 6)
- Graduation (p. 6)
- Other Regulations (p. 6)

MPH, MHA, DrPh, or PhD) after their name only when they have completed all degree requirements.

Enrollment Status

Once entered in an undergraduate degree program, students are expected to be registered continuously during all fall and spring semesters and to be engaged actively in fulfilling the requirements for their degree.

- During the summer session, students do not have to be enrolled unless they are graduating during the summer; in this case, they should register for Continuous Enrollment.
- Some additional activities, such as study abroad programs, qualify as continuous enrollment.

Degree students who need to interrupt active pursuit of the degree may petition to take a leave of absence for a period of no more than one calendar year during their program. Students who discontinue active enrollment in degree studies without being granted a leave of absence, or students who are granted a leave but do not return to active study at the close of the period of approved absence, are no longer in status and must apply for readmission and be subject to the regulations and program requirements then in effect. Readmission to any program is a competitive process and not guaranteed.

Advising

Students are responsible for building a support system to help ensure their own academic success. Each student is assigned a faculty advisor who may assist not only with academic counseling, but also in areas ranging from understanding University requirements to finding campus resources to help individual students connect with the GW the community. Other members of the faculty, professional advisors, tutors, and/or counselors also should be part of the support system. The University Career Center and The Writing Center offer walk-in and by-appointment assistance. Personal counseling is available through the office of the Dean of Student Affairs, Mental Health Services, Disability Support Services, Multicultural Student Services Center, and International Services Office.

Milken Institute SPH students may double major. Exercise science majors may not declare a minor in nutrition.

Students in the exercise science majors who earn a grade of D+ or below in the first course of a sequence (such as EXNS 1110 or EXNS 2111) **may not** take the second course in the sequence in the following semester. Students must earn a C- or above in the first course before taking the second course in the sequence. Please see your advisor for more information.

Timely Progress Toward the Degree

Students who fail to make adequate and timely progress toward the degree, through repeated leaves of absence or repeated failure to complete an appropriate number of credits per semester, may be dismissed from the University (see Right to Dismiss Students under University Regulations). Students

Undergraduate Regulations

Graduation Requirements

Depending on the Milken Institute SPH degree program, students must complete 120 to 124 credits. Students in the BS in exercise science degree programs must have a minimum cumulative GPA of 2.5 in courses in the exercise science core; those in the BS in public health program must have a minimum overall cumulative GPA of 2.5. The University General Education Requirements are listed under each program's requirements tab in this Bulletin.

While degrees are awarded at the end of each semester, formal commencement ceremonies occur only in May. Students are eligible to graduate only after they have completed all degree requirements and have no financial obligations to the University. Students may include degree designations (BS, MS,

dismissed on these grounds may apply for readmission after supplying sufficient evidence of academic promise. Additionally, students must attain grades no lower than C- in required major field courses. If a student receives a grade of D+, D, or D- in a course specifically required for the major, the student will be required to repeat the course until a satisfactory grade (C- or above) is earned. Once the student has completed the course with a satisfactory grade, credits earned the first time the course was taken will count toward the minimum number of credits required for the major. Credits earned toward the repetition do not count toward the degree.

Incompletes

Conditions under which the symbol *I*, Incomplete, may be assigned are described under **University Regulations**. In the Milken Institute SPH, the conditions for granting a notation of *I* must be documented in a **written contract** between the faculty member and the student, to be submitted prior to the last day of the term. The incomplete work must be completed as specified in the contract but no later than six months from the end of the semester in which the course was taken. If work for the course is not completed within the designated time, the grade will be converted automatically to a grade of *F*. In cases of well-documented extenuating circumstances, an instructor and a student may jointly petition the dean for additional time in which to complete the work of the course.

Pass/No Pass Option

Junior or senior students in good standing may, with the permission of the instructor and program director, take one course each semester for a grade of *P*, Pass, or *NP*, No Pass. No student will be allowed to take more than a total of four courses on a *P/NP* basis under this regulation. Students may, however, also receive grades of *P/NP* in courses that are graded only on that basis. Courses required for the University General Education Requirement or in the student's major or minor field (including those courses required for the major that are offered by other departments) may not be taken on the *P/NP* basis. A transfer student may not choose this option until the second semester of enrollment in the University. Under no circumstances may a student change from *P/NP* status to graded status, or vice versa, after the end of the eighth week of class. The Milken Institute SPH does not allow LSPA courses to be counted toward the degree.

Academic Workload

To encourage academic performance of high quality, The Milken Institute SPH limits the number of credits an undergraduate student may register for in a given semester to 17. However, after freshman year, students who wish to request approval for a course overload may do so. Requests will be reviewed based on prior academic performance. Students must be in good academic standing and have no pending incomplete grades, or grades of *F*, *W*, or *Z* from the previous semester. Permission to take a course load of 18 credits requires the written approval of the faculty advisor. Permission

to take a course load of 19 credits may be granted for full-time students who, during the immediately preceding semester, have received no grades below *B-* and have earned grades of *A* or *A-* in three courses totaling at least 9 credits with the written approval of the dean. Undergraduates taking more than 17 credits per semester will be charged at the rate of 1 credit for each credit exceeding that limit.

Applying for Readmission to a Program

Undergraduate students who previously were registered in a SPH program but who did not register during the immediately preceding semester (summer sessions excluded) are out of status and must apply for readmission by completing an admissions petition. Filing the petition does not guarantee that the student will be readmitted. Milken Institute SPH departments are responsible for readmitting students and can do so only if the student is not in violation of other Milken Institute SPH or University policies. Students who have attended one or more academic institutions while absent from this University must have complete, official transcripts from each institution sent directly to the Milken Institute SPH Office of Admissions. Applicants for readmission are considered on the basis of policies and program requirements currently in effect and if readmitted, will be subject to the policies and program requirements then in effect.

International Students--Less than Full-Time Status

International students on an F-1 or J-1 Visa are responsible for enrolling as a full-time student (minimum 12 credits for undergraduate students) for spring and fall semesters according to U.S. Immigration and Naturalization rules governing registration requirements. In certain circumstances, a reduced course load may be allowed; students should contact the International Services Office (<http://internationalservices.gwu.edu>) to request approval for this exception.

Special Honors

In addition to meeting the general requirements stated under University Regulations, a candidate for graduation with Special Honors in exercise science must have a minimum GPA of 3.5 in required courses in the major and a minimum overall GPA of 3.25. The candidate must submit an honors paper; the student will be recommended for graduation with special honors only if a committee of at least two faculty members approves the paper.

Independent Study Course Requirements

Independent study is designed to provide the student with an opportunity to gain or enhance public health knowledge and to explore an area of interest related to public health research or the delivery and/or administration of health services. Forms and instructions for registration are available online (<http://publichealth.gwu.edu/academics/forms>). Independent study projects may not be used as a substitute

for an available required or elective course and may not cover substantially the same subject matter that is available in a required or elective course.

Preparation for Medical School

A student who plans to apply to medical school fulfills the general requirements of their program. The health professions advisors in the Columbian College Office of Undergraduate Studies provide advice about academic preparation for medical school. For admission to most medical schools, the student must earn a bachelor's degree that includes the following coursework: Biology—8 credits of introductory biology, including laboratory. Students who receive credit for AP biology must complete 8 credits of upper-level biology coursework, including laboratory; chemistry—8 credits of general inorganic chemistry, including laboratory; organic Chemistry—8 credits, including laboratory; biochemistry—3 credits; physics—8 credits, including laboratory; and English—6 credits in introductory English composition courses (fulfilled by the University Writing Program). Many medical schools have additional entrance requirements, which may include courses in biochemistry, genetics, and mathematics; even when such courses are not required, they are strongly recommended. With the exception of the specified requirements, applicants are urged to follow their personal interests in developing their course of study.

Preparation for Law School

A broad liberal arts education is the best undergraduate preparation for law school. Students are encouraged to use elective credit to increase the breadth of their program of study. Advice about academic preparation for law school is provided by the pre-law advisor in the Columbian College Office of Undergraduate Studies (<http://columbian.gwu.edu/undergraduate/advising>).

Other Regulations

Other regulations applicable to undergraduate students of the University can be found under University Regulations (<http://bulletin.gwu.edu/university-regulations>).

Graduate Regulations

The Milken Institute SPH provides an online Graduate Student Handbook (<http://publichealth.gwu.edu/pdf/Handbook.pdf>), which contains additional updated information on policies, regulations, and other matters of concern to enrolled or admitted students. It is the responsibility of the student to be aware of the information contained in both this Bulletin and the Handbook. Students should also consult departmental handbooks and guidelines.

Enrollment Status

Once entered in a graduate degree program, students are expected to be registered continuously during all fall

and spring semesters and engaged actively in fulfilling the requirements for the degree.

During the summer session, students do not have to be enrolled unless they are graduating during the summer; in this case, they should register for Continuous Enrollment.

- Some additional activities, such as Master's International, qualify as continuous enrollment.

Degree students who need to interrupt active pursuit of the degree may petition to take a Leave of Absence for a period of no more than one calendar year during their program. Students who discontinue active enrollment in degree studies without being granted a leave of absence, or students who granted a leave but does not return to active study at the close of the period of approved absence, are no longer in status and must apply for readmission and be subject to the regulations and program requirements then in effect. Readmission to any program is a competitive process and not guaranteed.

Advising

Students are responsible for building a support system to help ensure their own academic success. Each student is assigned a faculty advisor who may assist not only with academic counseling, but also in areas ranging from understanding University requirements to finding campus resources to help individual students connect with the GW the community. Other members of the faculty, professional advisors, tutors, and/or counselors also should be part of the support system. The University Career Center (<http://publichealth.gwu.edu/services/career-center>) and Writing Center (<http://www.gwu.edu/%7Egwriter>) offer walk-in and by-appointment assistance. Personal counseling is available through the office of the Dean of Student Affairs (<http://students.gwu.edu>), Mental Health Services (<http://counselingcenter.gwu.edu>), Disability Support Services (<http://gwired.gwu.edu/dss>), the Multicultural Student Services Center (<http://gwired.gwu.edu/mssc/?url=mssc>), and the International Services Office (<http://internationalservices.gwu.edu>).

Academic Standing

Graduate students who are not suspended, on academic probation, or under extended provisional admission status are considered to be in good standing. Maintenance of a minimum GPA of 3.0 is required for the degree. All courses taken for graduate credit after matriculation as a degree candidate—including those the Milken Institute SPH transferred in from non-degree status, but excluding those audited or taken for the grade of CR/NC—will be used to calculate the GPA.

Provisional Admission

Graduate program applicants with credentials that are weaker than expected for graduate study, but who nonetheless show promise of successful graduate work, occasionally are granted provisional admission by the Milken Institute SPH Admissions Committee. While on provisional admission status, students are required to see their advisors each semester prior to

registration. Provisionally admitted graduate students must demonstrate their ability to maintain a minimum GPA of 3.0 in the first 9 credits of coursework attempted, and during this time are not allowed to receive an Incomplete or a grade lower than a 3.0; provisionally admitted students who meet these requirements are granted good standing. Provisionally admitted students who do not meet these requirements are subject to suspension.

Semester Warning

Graduate students whose cumulative GPA is below 3.0 after attempting a minimum of 1 credit and a maximum of 8 credits will be issued a warning at the end of the semester and will be required to take corrective measures, such as meeting with their academic advisor to outline steps to raise the GPA.

Probation

Graduate students whose GPA falls below 3.0 at any point after completing 9 credits will be placed on probation. This probation extends through the period in which the student next attempts up to 12 credits of work, including prescribed courses. A student's program may be restricted by the program director if deemed necessary. During this period, the student's performance will be monitored to determine suitability for continued study. A student who fails to raise the cumulative GPA to 3.0 or above during the period of probation is subject to suspension. Incompletes and grades of B- or below are not permitted during the probationary period and are grounds for automatic suspension. A student who is subject to probation for a second time at any point during their degree program may be suspended automatically.

Grade of F

Graduate student who receive a grade of F are subject to suspension. If such students wish to remain enrolled, they must present cause, for consideration by the dean and the director of his/her degree program, as to why continued study should be permitted. Once a grade of F is earned in a core, required, or elective course, it remains a part of the student's permanent record and is calculated into the GPA. A graduate student who receives the grade of F in a core or other required course and is permitted to continue in graduate studies must repeat the course and achieve a minimum grade of 3.0. The repetition does not, however, expunge the grade of F, which remains part of the student's record. If the student receives a grade below 3.0 in the repeated course, he or she will be suspended from the degree program.

Suspension

Graduate student who receive an F or do not meet the conditions of probation are subject to suspension. Suspended students may not register for or complete any courses at The George Washington University. The dean, in consultation with the student's academic advisor, may continue a student on probation (in lieu of suspension) if satisfactory progress is demonstrated during the probationary period, and sufficient evidence of academic promise, by way of a statement of

appeal, is offered by the student. A student who is suspended or withdraws under these conditions may apply for readmission after one semester. To be readmitted, the student must submit evidence that suggests the probability of academic success. A student who is readmitted will continue on academic probation and must achieve a minimum GPA of 3.5 in the next 12 credits of graduate study. Should the student fail to achieve this GPA, he or she will be suspended and will not be readmitted.

Timely Progress Toward the Degree

A graduate student who fails to make adequate and timely progress toward the degree, through repeated leaves of absence or repeated failure to complete an appropriate number of credits per semester, may be suspended. Students suspended on these grounds may apply for readmission after supplying sufficient evidence of academic promise.

Summary of Academic Standing Policies for Graduate Students

- Provisional Admission—A student who receives a grade of I or of B- or below while on provisional admission status is subject to suspension.
- Semester Warning—A student with a cumulative GPA below 3.0 (with fewer than 9 credits completed) must take corrective action.
- Academic Probation—A student with a cumulative GPA below 3.0 (with 9 or more credits completed) is placed on academic probation. A student on academic probation who receives an unacceptable grade (B-, C, F, I, Z) or fails to raise the cumulative GPA to 3.0 within the next 12 credits taken is subject to suspension.
- Grade of F—A student who receives a grade of F is subject to suspension. If a student wishes to remain enrolled he or she must present cause as to why continued study should be permitted. If permitted to continue in graduate studies, the student must repeat the course (if core or required) and achieve a minimum grade of B.
- Suspension—A student who is suspended may not register for or complete any courses at GW. A student who is suspended or withdraws under these conditions may apply for readmission after one semester.

Incompletes

Incompletes -Conditions under which the symbol I, Incomplete, may be assigned are described under **University Regulations**. In the Milken Institute SPH, the conditions for granting a notation of I must be documented in a **written contract** between the faculty member and the student, to be submitted prior to the last day of the term. The incomplete work must be completed as specified in the contract but no later than six months from the end of the semester in which the course was taken. If work for the course is not completed within the designated time, the grade will be converted automatically to a grade of F. In cases of well-documented extenuating circumstances, an instructor and a student

may jointly petition the dean for additional time in which to complete the work of the course.

In Progress (IP)

The notation In Progress (*IPG*) is assigned for all thesis, residency, advanced reading, independent study, culminating experience, practicum, and dissertation research courses until the coursework is completed. Upon the satisfactory completion, the grade replaces the notation *IPG* on the transcript. An *IPG* may not be assigned to regular, semester-length courses.

Applying for Readmission to a Program

Students Who Have Taken Classes Within the Past Year:

Milken Institute SPH graduate degree or certificate students who were previously registered in the university but did not register during the immediate preceding semester/module (excluding summer sessions) are out of status and must apply for readmission by completing an admissions petition. (<http://publichealth.gwu.edu/academics/forms>)

Students Who Have Not Taken Classes in More Than a Year:

Students who have not taken any courses at GW in more than one year must apply for readmission using SOPHAS Express (<https://sophasexpress.liaisoncas.com>).

Students Who Have Been Suspended:

Students who were suspended from the Milken Institute SPH must apply for readmission through SOPHAS Express (<https://sophasexpress.liaisoncas.com>). Students may only apply for readmission after at least one academic year has passed. Students should consult with the advisor concerning readmission requirements.

International Students--Less than Full-Time Status

International students on an F-1 or J-1 Visa are responsible for enrolling as full-time student (minimum 9 credits for graduate students) for the spring and fall semesters according to the U.S. Immigration and Naturalization rules governing registration requirements. Under certain circumstances, a reduced course load may be allowed. To request approval for a course reduction, students should submit the F-1/J-1 Request for Reduced Course Load Form (<http://bulletin.gwu.edu/public-health/%20http://gwired.gwu.edu/iso/CurrentStudents/formscopy>). More information is available by calling the ISO at (202) 994-4477.

Independent Study Course Requirements

Independent study is designed to provide students with an opportunity to gain or enhance public health knowledge and to explore an area of interest related to public health research or the delivery and/or administration of health services. Instructions and forms required for registration (<http://publichealth.gwu.edu/academics/forms>) are available. Independent study projects may not be used as a substitute for an available required or elective course and may not cover

substantially the same subject matter that is available in a required or elective course.

Graduation

While degrees are awarded at the end of each semester, formal commencement ceremonies occur only in May. Students are eligible to graduate only after they have completed all degree requirements and have no financial obligations to the University. Students may include degree designation (BS, MS, MPH, MHA, DrPh, or PhD) after their name only when they have completed all degree requirements.

Other Regulations

Other regulations applicable to graduate students of the University can be found under University Regulations. (<http://bulletin.gwu.edu/university-regulations>)

UNDERGRADUATE

Bachelor's programs

- Bachelor of Science with a major in exercise science (<http://bulletin.gwu.edu/public-health/exercise-science/bs>)
- Bachelor of Science with a major in exercise science, pre-athletic training/sports medicine concentration (<http://bulletin.gwu.edu/public-health/exercise-science/bs/pre-athletic-training>)
- Bachelor of Science with a major in exercise science, pre-medical professional concentration (<http://bulletin.gwu.edu/public-health/exercise-science/bs/pre-medical>)
- Bachelor of Science with a major in exercise science, pre-physical therapy concentration (<http://bulletin.gwu.edu/public-health/exercise-science/bs/pre-physical-therapy>)
- Bachelor of Science with a major in public health (<http://bulletin.gwu.edu/public-health/bs-public-health>)

Combined program

- Dual Bachelor of Science in public health and Master of Public Health

Minors

- Minor in exercise science (<http://bulletin.gwu.edu/public-health/exercise-science/minor>)
- Minor in nutrition
- Minor in public health

GRADUATE

Master of Public Health

- Master of Public Health in the field of biostatistics (<http://bulletin.gwu.edu/public-health/epidemiology-biostatistics/mpb-biostatistics>)
- Master of Public Health in the field of community oriented primary care (<http://bulletin.gwu.edu/public-health/>)

prevention-community-health/mpg-community-oriented-primary-care)

- Master of Public Health in the field of environmental health science and policy (<http://bulletin.gwu.edu/public-health/environmental-occupational-health/mpg-environmental-health-science-policy>)
- Master of Public Health in the field of epidemiology
- Master of Public Health in the field of global environmental health (<http://bulletin.gwu.edu/public-health/environmental-occupational-health/mpg-global-environmental-health>)
- Master of Public Health in the field of global health communication (<http://bulletin.gwu.edu/public-health/global-health/mpg-global-health-communication>)
- Master of Public Health in the field of global health program design, monitoring, and evaluation (<http://bulletin.gwu.edu/public-health/global-health/mpg-global-health-design-monitoring-evaluation>)
- Master of Public Health in the field of global health policy (<http://bulletin.gwu.edu/public-health/global-health/mpg-global-health-policy>)
- Master of Public Health in the field of global health epidemiology and disease control (<http://bulletin.gwu.edu/public-health/global-health/mpg-global-health-epidemiology-disease-control>)
- Master of Public Health in the field of health policy (<http://bulletin.gwu.edu/public-health/health-policy-management/mpg>)
- Master of Public Health in the field of health promotion (<http://bulletin.gwu.edu/public-health/prevention-community-health/mpg-health-promotion>)
- Master of Public Health in the field of maternal and child health (<http://bulletin.gwu.edu/public-health/prevention-community-health/mpg-maternal-child-health>)
- Master of Public Health in the field of physical activity in public health (<http://bulletin.gwu.edu/public-health/exercise-science/mpg-physical-activity>)
- Master of Public Health in the field of public health communication and marketing (<http://bulletin.gwu.edu/public-health/prevention-community-health/mpg-public-health-communication-marketing>)
- Master of Public Health in the field of public health nutrition (<http://bulletin.gwu.edu/public-health/exercise-science/mpg-public-health-nutrition>)
- Master of Public Health (MPH@GW) (<http://bulletin.gwu.edu/public-health/mpg-at-gw>)

Master of Science

- Master of Science in the field of biostatistics (<http://bulletin.gwu.edu/public-health/epidemiology-biostatistics/ms-biostatistics>)
- Master of Science in the field of epidemiology (<http://bulletin.gwu.edu/public-health/epidemiology-biostatistics/ms-epidemiology>)

- Master of Science in the field of exercise science with a concentration in strength and conditioning (<http://bulletin.gwu.edu/public-health/exercise-science/ms-concentration-strength-conditioning>)
- Master of Science in the field of health policy (<http://bulletin.gwu.edu/public-health/health-policy-management/ms>)
- Master of Science in the field of public health microbiology and emerging infectious diseases (<http://bulletin.gwu.edu/public-health/epidemiology-biostatistics/ms-microbiology-emerging-infectious-diseases>)
- Master of Science in the field of management of health informatics and analytics (<http://bulletin.gwu.edu/public-health/health-policy-management/ms-management-health-informatics-analytics>)

Master of Health Administration

- Master of Health Administration (<http://bulletin.gwu.edu/public-health/health-policy-management/mha>)
- Master of Health Administration—online/executive program (MHA@GW) (<http://bulletin.gwu.edu/public-health/health-policy-management/mha-online-executive-program>)

Specialist program

- Health Services Administration Specialist (<http://bulletin.gwu.edu/public-health/health-policy-management/hsa-specialist>)

Combined programs

- Dual Doctor of Medicine and Master of Public Health (<http://bulletin.gwu.edu/public-health/graduate-programs/md-mph>)
- Dual Master of Arts in the field of international affairs and Master of Public Health (<http://bulletin.gwu.edu/public-health/ma-mph>)
- Dual Master of Health Administration with a certificate in health care corporate compliance (<http://bulletin.gwu.edu/public-health/mha-corporate-compliance-certificate>)
- Dual Master of Public Health in the field of health policy with a certificate in health care corporate compliance (<http://bulletin.gwu.edu/public-health/mpg-corporate-compliance-certificate>)
- Dual Master of Science in Health Policy with a certificate in health care corporate compliance (<http://bulletin.gwu.edu/public-health/ms-health-policy-corporate-compliance-certificate>)
- Dual Master of Science in Health Sciences in the field of physicians assistant and Master of Public Health (<http://bulletin.gwu.edu/public-health/mshs-mph>)
- Joint Juris Doctor or Master of Laws and Master of Public Health or SPH graduate certificate (<http://bulletin.gwu.edu/public-health/jd-mph>)

Doctoral programs

- Doctor of Public Health in the field of environmental and occupational health (<http://bulletin.gwu.edu/public-health/environmental-occupational-health/drph>)
- Doctor of Public Health in the field of global health (<http://bulletin.gwu.edu/public-health/global-health/drph>)
- Doctor of Public Health in the field of health behavior (<http://bulletin.gwu.edu/public-health/prevention-community-health/dph-health-behavior-specialty>)
- Doctor of Public Health in the field of health policy (<http://bulletin.gwu.edu/public-health/health-policy-management/dph>)
- Doctor of Philosophy in the field of biostatistics (<http://bulletin.gwu.edu/public-health/epidemiology-biostatistics/phd-biostatistics>)
- Doctor of Philosophy in the field of epidemiology (<http://bulletin.gwu.edu/public-health/epidemiology-biostatistics/phd-epidemiology>)
- Doctor of Philosophy in the field of public policy and administration (health policy track) (<http://bulletin.gwu.edu/public-health/health-policy-management/phd-public-policy-administration>)
- Doctor of Philosophy in the field of social and behavioral sciences in public health (<http://bulletin.gwu.edu/public-health/prevention-community-health/phd-social-behavioral-sciences-in-public-health>)

CERTIFICATES

- Graduate certificate in public health (<http://bulletin.gwu.edu/public-health/public-health-certificate>)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

The letters and range of numbers below indicate the department in which the course is offered.

- PUBH 6000 - 6099: MPH Core & MPH@GW Program-Specific Courses
- PUBH 6100 - 6199: Environmental and Occupational Health Courses
- PUBH 6200 - 6299: Epidemiology and Biostatistics Courses
- PUBH 6300 - 6399: Health Policy Courses
- PUBH 6400 - 6499: Global Health Courses
- PUBH 6500 - 6599: Prevention and Community Health Courses
- PUBH 6600 - 6699: Public Health Nutrition and Miscellaneous Courses
- PUBH 8000 - 9000: Doctoral Level Courses
