BACHELOR OF FINE ARTS WITH A MAJOR IN PHOTOJOURNALISM

Today more than ever, there is a need for photojournalists who work as observers, reporters, and storytellers and share what is happening around the world. George Washington University's photojournalism program provides a unique, multidisciplinary training ground for a new generation of visual reporters and documentarians. The program immerses students in both traditions of photojournalism and the studio arts. They develop their visual and reporting voices through in-depth, multimedia courses taken in tandem with reporting courses at the School of Media and Public Affairs. Through a combination of a faculty that includes award-winning photographers and editors from the Washington Post, White House, and Associated Press, the program's curriculum stresses the importance of individual creativity and emphasizes the profession's legal, ethical, and economic challenges, leaving graduates uniquely prepared to succeed in today's market.

Visit the program website (https://corcoran.gwu.edu/photojournalism-undergraduate/) for additional information.

**GENERAL EDUCATION**

In addition to the University General Education Requirement (http://bulletin.gwu.edu/university-regulations/general-education/), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication (G-PAC) (http://bulletin.gwu.edu/arts-sciences/gpac/) as well as CCAS 1001. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

**Coursework for the University General Education Requirement is distributed as follows:**

• Writing—4 credits in UW 1020 University Writing and 6 credits taken in at least two writing in the disciplines (WID) courses in two or more separate semesters. WID courses are designated by a “W” appended to the course number.
• Humanities—one approved humanities course that involves critical thinking skills.
• Mathematics or statistics—one approved course in either mathematics or statistics.
• Natural or physical science—one approved laboratory course that employs the process of scientific inquiry.
• Social Sciences—two approved courses in the social sciences that employ critical thinking, quantitative reasoning, or scientific reasoning.

**Coursework for the CCAS G-PAC requirement is distributed as follows:**

• Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
• Global or cross-cultural perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
• Local or civic engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
• Oral communication—one approved course in oral communication.
• Natural or physical science—one additional approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
• Humanities—one additional approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
• CCAS 1001 First-Year Experience

Certain courses are approved to fulfill GPAC requirements in more than one category.
Courses taken in fulfillment of G-PAC requirements may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

Lists of approved courses in the above categories are included on each undergraduate major’s (http://bulletin.gwu.edu/arts-sciences/#majorstext) page in this Bulletin.
