BACHELOR OF ARTS WITH A MAJOR IN CHINESE LANGUAGE AND LITERATURE

Chinese is the most-spoken language in the world, and with China’s increasing presence on the world stage, being proficient in Chinese has many advantages. Through GW’s bachelor of arts in Chinese language and literature program, students are equipped with an oral and written proficiency in Chinese and an understanding of Chinese history, literature, and culture. Students have opportunities to study with world-renowned scholars, including Professor of Chinese Jonathan Chaves, a prominent author and lecturer on Chinese and Japanese culture and poetry. Seeking excellence and aiming to prepare students for real-world tasks, linguistically and culturally, the program helps students build a solid Chinese language foundation that benefits lifelong learning. Our graduates enter fields such as international diplomacy, international business, and education, working in agencies such as the U.S. Foreign Service, CIA, or U.S. State Department.

Visit the program website (https://eall.columbian.gwu.edu/chinese/) for additional information.

GENERAL EDUCATION
In addition to the University General Education Requirement (http://bulletin.gwu.edu/university-regulations/general-education/), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication (G-PAC) (http://bulletin.gwu.edu/arts-sciences/gpac/) as well as the course CCAS 1001 First-Year Experience. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Coursework (http://bulletin.gwu.edu/university-regulations/general-education/#generaleducationtext) for the University General Education Requirement is distributed as follows:

- One course in quantitative reasoning (must be in mathematics or statistics).
- One course in scientific reasoning (must be in natural and/or physical laboratory sciences).
- Two courses in critical thinking, quantitative reasoning, or scientific reasoning in the social sciences.
- One course in critical thinking in the humanities.
- UW 1020 (https://bulletin.gwu.edu/search/?P=UW%201020) University Writing (4 credits).
- After successful completion of UW 1020, 6 credits distributed over at least two writing in the discipline (WID) courses taken in separate semesters. WID courses are designated by a "W" appended to the course number.

Coursework for the CCAS G-PAC requirement is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or cross-cultural perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Local or civic engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or physical science—one additional approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Humanities—one additional approved humanities course that involves critical thinking skills (in addition to the one course
in this category required by the University General Education Requirement).

• CCAS 1001 First-Year Experience

**Certain courses are approved to fulfill GPAC requirements in more than one category.**

Courses taken in fulfillment of G-PAC requirements may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

Lists of approved courses in the above categories are included on each undergraduate major’s (http://bulletin.gwu.edu/arts-sciences/#majorstext) page in this Bulletin.

**SPECIAL HONORS**

Students may apply to earn special honors in Chinese to be noted on their transcript. Departmental faculty will recommend a student for special honors only if they meet the requirements for eligibility:

• Meet the general requirements for special honors (http://bulletin.gwu.edu/university-regulations/#undergraduatetext) stated under University Regulations.

• Maintain a minimum GPA of 3.7 in courses in the major and a 3.4 GPA overall.

• Complete an honors thesis. Before the beginning of the fall semester of their senior year, qualified students may be invited to write an honors thesis. Candidates for special honors enroll in CHIN 4199 and work on the thesis under faculty supervision; a grade of A or A- must be earned in the course. The program in Chinese language and literature recommends no more than two students per year for special honors, based on the student’s overall performance in the program. A committee of three faculty members must approve a recommendation for special honors.
