MASTER OF SCIENCE IN THE FIELD OF APPLIED ECONOMICS (STEM)

The master of science (MS) in applied economics provides students with the tools needed to succeed as economists in today’s data-driven world. The program teaches students how to draw meaningful implications from economic data, to apply economic theory and quantitative methods to answer real-world policy questions, and to integrate economic analysis into their professional lives.

The program helps students develop the ability to communicate ideas through coursework, workshops, and intensive data and economic analysis. The program is offered both full- and part time to accommodate students’ work schedules. Graduate certificate programs in areas such as data science, budget and public finance, accountancy, financial management, and digital marketing may be pursued simultaneously.

Graduates of the applied economics program are prepared for positions as economic analysts in government, private consulting firms, financial institutions, international organizations, and applied policy research institutions. Coursework integrating academic scholarship with hands-on research and data projects prepares graduates to enter the job market with proven skills to succeed as economists in today’s data-driven world.

Program students come from the United States and around the world and are a mix of recent graduates and students with years of work experience.

This is a STEM designated program.

Visit the program website (https://economics.columbian.gwu.edu/ms-applied-economics/) for additional information.

ADMISSIONS

Admission deadlines:

- Fall - February 1: Priority consideration for admission and funding; April 1: Guaranteed review for admission and consideration for funding, if available. (Applications for admission will continue to be accepted after April 1, when space remains available in the program.)
- Spring - October 1

Applications received after the deadline will be considered on a case-by-case basis.

Standardized GRE is not required.

Test scores:

Minimum scores for the program are:
- Academic IELTS: an overall band score of 6.0 with no individual score below 5.0;
- TOEFL: 550 on paper-based or 80 on Internet-based;
- PTE Academic: 53.

Required:

- Transcripts are required from all colleges and universities attended, whether or not credit was earned, the program was completed, or the credit appears as transfer credit on another transcript. Unofficial transcripts from all colleges and universities attended must be uploaded to your online application. Official transcripts are required only of applicants who are offered admission. If transcripts are in a language other than English, English language translations must be provided. The English translation alone should be uploaded into your application.
- Two (2) recommendations required.

Prerequisite requirements:

Successful completion of Introductory Macroeconomics and Introductory Microeconomics courses (with a grade of B or better), and one semester of college level calculus (B- grade or better).

International applicants only:

- Please review International Applicant Information (https://columbian.gwu.edu/international-graduate-applicants) carefully for details on required documents, earlier deadlines for applicants requiring an I-20 or DS-2019 from GW, and English language requirements.

Supporting documents not submitted online should be mailed to:

Columbian College of Arts and Sciences, Office of Graduate Studies
The George Washington University
801 22nd Street NW, Phillips Hall 107
Washington DC 20052
For additional information about the admissions process visit the Columbian College of Arts and Sciences Frequently Asked Questions (https://columbian.gwu.edu/graduate-admissions-faq/) page.
