BACHELOR OF ARTS WITH A MAJOR IN MATHEMATICS

GW’s Department of Mathematics is committed to high-quality teaching and research, providing a curriculum that is designed to give students a solid background in the theory and practice of modern mathematics through three academic tracks: pure, applied, and computational. As a mathematics major, students are presented with a wealth of intellectual challenges and opportunities in Washington, DC, the city with the highest concentration of mathematicians in non-academic positions. Mathematics students at GW not only have a number of internship options, they also have an abundance of potential career options as analysts, consultants, actuaries, stockbrokers, physicians, attorneys, and educators.

Visit the program website (https://math.columbian.gwu.edu/) for additional information.

ADMISSIONS

For information about the admission process, including deadlines, visit the Office of Undergraduate Admissions website (https://undergraduate.admissions.gwu.edu/). Applications can be submitted via the Common Application (https://go.gwu.edu/commonapp/).

Supporting documents not submitted online should be mailed to:

Office of Undergraduate Admissions
The George Washington University
800 21st St NW Suite 100
Washington, DC 20052

For questions visit undergraduate.admissions.gwu.edu/contact-us (http://undergraduate.admissions.gwu.edu/contact-us/).

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext). Program-specific curriculum:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1231</td>
<td>Single-Variable Calculus I (or equivalent)</td>
<td></td>
</tr>
<tr>
<td>MATH 1232</td>
<td>Single-Variable Calculus II</td>
<td></td>
</tr>
<tr>
<td>MATH 2185</td>
<td>A Comprehensive Introduction to Linear Algebra*</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 4121</td>
<td>Introduction to Abstract Algebra I</td>
<td></td>
</tr>
<tr>
<td>MATH 4239</td>
<td>Real Analysis I</td>
<td></td>
</tr>
<tr>
<td>or MATH 4239W</td>
<td>Real Analysis I</td>
<td></td>
</tr>
<tr>
<td>Two courses (6 credits) selected from the following:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>MATH 3125</td>
<td>Linear Algebra II</td>
<td></td>
</tr>
<tr>
<td>MATH 3257</td>
<td>Introduction to Complex Variables</td>
<td></td>
</tr>
<tr>
<td>MATH 3806</td>
<td>Introduction to Topology</td>
<td></td>
</tr>
<tr>
<td>MATH 4122</td>
<td>Introduction to Abstract Algebra II</td>
<td></td>
</tr>
<tr>
<td>MATH 4240</td>
<td>Real Analysis II</td>
<td></td>
</tr>
</tbody>
</table>

Three additional MATH courses (9 credits) numbered in the 3000 and 4000 ranges.

Applied mathematics concentration
Required

MATH 3342 Ordinary Differential Equations
MATH 3343 Partial Differential Equations
MATH 3553 Introduction to Numerical Analysis
MATH 3359 Introduction to Mathematical Modeling

MATH 4239 Real Analysis I
or MATH 4239W Real Analysis I

Two additional MATH courses (6 credits) numbered in the 3000 and 4000 ranges.

Interdisciplinary mathematics concentration

Required

MATH 3342 Ordinary Differential Equations
MATH 3553 Introduction to Numerical Analysis
MATH 3359 Introduction to Mathematical Modeling

Four additional MATH courses (12 credits) numbered in the 3000 and 4000 ranges.

Minor or second major requirement: Students in the interdisciplinary concentration must complete an approved minor or second major in a field in which mathematics is applied. The pre-approved fields are astronomy and astrophysics, biology, bioinformatics, biophysics, chemistry, data science, economics, finance, information systems, physics, statistics, and all fields in the School of Engineering and Applied Science.

Coursework for the University General Education Requirement is distributed as follows:

- Writing—4 credits in UW 1020 University Writing and 6 credits taken in at least two writing in the disciplines (WID) courses in two or more separate semesters. WID courses are designated by a “W” appended to the course number.
- Humanities—one approved humanities course that involves critical thinking skills.
- Mathematics or statistics—one approved course in either mathematics or statistics.
- Natural or physical science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences that employ critical thinking, quantitative reasoning, or scientific reasoning.

Coursework for the CCAS G-PAC requirement is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or cross-cultural perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Local or civic engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Oral communication—one approved course in oral communication.
- Natural or physical science—one additional approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Humanities—one additional approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- CCAS 1001 First-Year Experience

Certain courses are approved to fulfill GPAC requirements in more than one category.

Courses taken in fulfillment of G-PAC requirements may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

Lists of approved courses in the above categories are included on each undergraduate major’s page in this Bulletin.
SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a grade-point average of at least 3.5 in courses in the major; complete 3 credits of MATH 4995 Reading and Research in addition to the other required courses in the major; and present an oral defense of a senior thesis prepared for MATH 4995 Reading and Research.
