

# BACHELOR OF ARTS WITH A MAJOR IN CRIMINAL JUSTICE

Students in the bachelor of arts in criminal justice program enjoy a dynamic and empirically rigorous curriculum that prepares them to be informed members of their communities, critical consumers of information, and change-makers. The program examines the social context (including racial and economic inequalities and law) and contemporary realities of crime; institutions of criminal justice such as policing, courts, and punishment; and related topics such as reentry, policing, juvenile justice, and victimization. The criminal justice major places a strong emphasis on theory (criminology, deviance and social control) and research methods. Through research and coursework, students develop an understanding of how societies define, facilitate or reduce crime and the social conditions that contribute to crime and its control.

The senior capstone class includes a required internship (<https://sociology.columbian.gwu.edu/academic-professional-resources/#internship>), drawing on GW's unique proximity to a wide array of advocacy organizations, government agencies, and think tanks. As the department's most popular major, the criminal justice program brings together a diverse group of students who seek to work in, reform, and research various dimensions of criminal justice, or fields related to it. Courses are taught by full-time faculty as well as experts in the field with career experience as well as academic and research knowledge. Many students double major or choose a related minor (for instance, public health, political science, psychology, law and society, business) or use it as a foundation to pursue an advanced degree in criminology (<https://sociology.columbian.gwu.edu/majors/criminology/>) or law school.

## GENERAL EDUCATION

In addition to the University General Education Requirement (<https://bulletin.gwu.edu/university-regulations/general-education/>), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication (G-PAC) (<https://bulletin.gwu.edu/arts-sciences/gpac/>) as well as the course CCAS 1001 First-Year Experience. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Coursework (<https://bulletin.gwu.edu/university-regulations/general-education/#generaleducationtext>) **for the University General Education Requirement is distributed as follows:**

- One course in critical thinking in the humanities.
- Two courses in critical thinking, quantitative reasoning, or scientific reasoning in the social sciences.
- One course that has an approved oral communication component.
- One course in quantitative reasoning (must be in mathematics or statistics).

- One course in scientific reasoning (must be in natural and/or physical laboratory sciences).
- UW 1020 (<https://bulletin.gwu.edu/search/?P=UW%201020>) University Writing (4 credits).
- After successful completion of UW 1020, 6 credits distributed over at least two writing in the discipline (WID) courses taken in separate semesters. WID courses are designated by a "W" appended to the course number.

**Coursework for the CCAS G-PAC requirement is distributed as follows:**

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or cross-cultural perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Local or civic engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or physical science—one additional approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Humanities—one additional approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- CCAS 1001 First-Year Experience

**Certain courses are approved to fulfill GPAC requirements in more than one category.**

Courses taken in fulfillment of G-PAC requirements may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

Lists of approved courses in the above categories are included on each undergraduate major's (<https://bulletin.gwu.edu/arts-sciences/#majorstext>) page in this Bulletin.

## SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a 3.5 grade-point average in the major, must be registered for 3 credits of SOC 3195 Research during the senior year, and must receive a grade of A on the research paper.
