MASTER OF ACCOUNTANCY

Whether in the field of auditing, tax, forensic accounting, or management, George Washington University’s master of accountancy (MAccy) program prepares students for professional certification as a CPA and sets them on the road to a successful career in the world’s leading accounting and consulting firms, government agencies, and nonprofit organizations.

Experienced accountants are more crucial today than ever before. From fighting terrorism with the FBI and corporate corruption with the SEC, to helping organizations large and small navigate an increasingly complex tangle of tax regulations, accountants are driving business and the business of government. The program of study can be tailored to a student’s career objectives.

The MAccy program consists of 30 credits and is available to qualifying students who possess a bachelor’s degree from a U.S.-accredited college or university.

Electives

15 credits in elective courses. At least 3 credits of electives must be taken from accountancy (ACCY) courses.

Students who intend to take the C.P.A. examination should be aware that the coursework required for admission to the examination varies from state to state. Students are advised to consult the Board of Accountancy for the state in which they plan to take the examination and choose electives that meet that state’s requirements.

In addition, students must fulfill preparatory courses in financial accounting, managerial accounting, micro- or macroeconomics, and statistics.

Preparatory courses may be waived without substitution for other coursework. Required classes, except for ACCY 6201 and ACCY 6202, may be waived with substitution for other coursework for students who:

- Have already completed these courses with a minimum grade of B-
- Have taken these courses at an AACSB-accredited institution
- Have taken these courses within five years prior to the first semester of enrollment into the program

Students should consult with the advisor concerning course substitution.
