DOCTOR OF EDUCATION IN THE FIELD OF EDUCATIONAL LEADERSHIP AND ADMINISTRATION

The doctoral program in educational leadership and administration offers students the opportunity to develop, shape, and grow their leadership and policy work in PreK-12 school administration and leadership. The program emphasizes four critical goals: Leadership for Equity and Social Justice, Leadership for School Improvement, Leadership for Change, and Research-based Practice and Practice-informed Research. The EdD in Educational Leadership and Administration includes intentionally sequenced, cohort-based content and research methods coursework designed to engage students in critical problem solving of pressing needs and challenges facing PreK-12 school leaders. The degree culminates in a practice-informed dissertation research study.

DOCTORAL PROGRAM LEVEL B COURSES

Doctoral Program Level B Courses

GSEHD’s Level B research methods courses are advanced courses in a specific research methodology. All GSEHD doctoral students are required to take at least one Level B course in the methodology of their dissertation. The courses listed below are approved to meet this requirement. EDUC 8120 Group Comparison Designs and Analyses, and EDUC 8122 Qualitative Research Methods, must be completed before enrolling in a Level B course.

Some programs require more than one Level B course. Some Level B courses are taken in a predetermined sequence; for this reason, students should check each course description for prerequisites, as courses in the sequence build on others. More information regarding the Level B course sequence is available in the GSEHD Doctoral Student Handbook; students also may consult their faculty advisor or research methods faculty for additional guidance.
