DUAL BACHELOR OF SCIENCE
WITH A MAJOR IN BIOMEDICAL
ENGINEERING AND MASTER
OF SCIENCE IN THE FIELD OF
BIOMEDICAL ENGINEERING

The School of Engineering and Applied Science offers a
dual bachelor of science with a major in biomedical engineering
(http://bulletin.gwu.edu/engineering-applied-science/
biomedical-engineering/bs/) and master of science in the field of
biomedical engineering (http://bulletin.gwu.edu/engineering-
applied-science/biomedical-engineering/ms/) degree program.
The program allows students to take up to 6 graduate credits as part
of their undergraduate program, thereby decreasing the number of
credits normally required for the master’s degree. All requirements
for both degrees must be fulfilled.

Students interested in the dual degree program should confer with
the department’s graduate adviser early in their junior year. Visit
the program website (https://graduate.seas.gwu.edu/bs-ms-
biomedical-engineering/) for additional information.
