GRADUATE CERTIFICATE IN GLOBAL GENDER POLICY

As gender inequality continues to challenge society, global gender policy continues to grow within international affairs. The graduate certificate program in global gender policy prepares students to become leaders in promoting gender equality around the world. Students in the program will take a cornerstone course on global gender policy, as well as a rigorous methods course that explores the challenges and best practices of gender-specific data collection and analysis. In addition to these core requirements, students can choose from elective courses on subjects from gender and disaster to human trafficking, as well as several one-credit skills courses related to this field.

Visit the program website (http://elliott.gwu.edu/graduate-certificates/global-gender-policy/) for additional program information.
