The online graduate certificate in clinical operations and healthcare management prepares students to effectively lead clinical operations and strategic development initiatives for a variety of healthcare organizations across the continuum of care. In GW’s flexible online graduate certificate program, participants will study ways to improve their own communication skills for optimal interprofessional practice, lead efforts in quality improvement, and utilize the technological tools needed to conduct effective data analyses for strategic development.

After completing the graduate certificate program, students may pursue a clinical operations career in a variety of healthcare organizations. All 18 credit hours are transferable to the MSHS program in clinical operations and healthcare management.

Program Outcomes
- Communicate effectively across a variety of platforms to optimize interprofessional practice and operations
- Evaluate healthcare systems to enhance ethical, efficient, and financially sound operations
- Conduct effective data analyses for operational and strategic development in a healthcare setting continuum
- Lead efforts to continuously improve the quality and value across healthcare operations
- Improve organizational performance by successfully implementing change management

Visit the program website (https://cohm.smhs.gwu.edu/) for additional information.
