GRADUATE CERTIFICATE IN CLINICAL AND TRANSLATIONAL RESEARCH

The online graduate certificate in clinical and translational research quickly prepares you for a role as the primary investigator in clinical research on multi-site projects. By completing the Clinical and Translational Research Graduate Certificate, students learn to improve patient and community health as you understand how science and clinical research moves from the bench (i.e., lab) to bedside (i.e., patient).

Visit the program website (https://ctr.smhs.gwu.edu/) for additional program information.
