

DUAL BACHELOR OF SCIENCE IN HEALTH SCIENCES WITH A MAJOR IN CLINICAL OPERATIONS AND HEALTHCARE MANAGEMENT AND MASTER OF SCIENCE IN HEALTH SCIENCES IN THE FIELD OF HEALTH CARE QUALITY

The School of Medicine and Health Sciences offers a dual bachelor of science in health sciences with a major in clinical operations and healthcare management (<https://bulletin.gwu.edu/medicine-health-sciences/undergraduate-programs/bshs-clinical-operations-health-care-management/>) and master of science in health sciences in the field of healthcare quality (<https://bulletin.gwu.edu/medicine-health-sciences/graduate-programs/ms-health-care-quality/>) degree program. The dual program allows students to take 9 credits in graduate-level courses from the master's degree during their undergraduate program. The credits are counted toward both degrees, thereby decreasing the number of credits normally required for the master's. All requirements for both degrees must be fulfilled.

Shared credits: 9

One undergraduate elective is waived for each of the following graduate courses taken during the undergraduate program:

Code	Title	Credits
COHM 6235	Leadership Development in Healthcare Systems	
HSCI 6263	Biostatistics Translational Research	
HCQ 6200	Introduction to Healthcare Quality	

Visit the School of Medicine and Health Sciences website (<https://smhs.gwu.edu/academics/health-sciences/academics/jointdual/>) for additional information.
