BACHELOR OF SCIENCE WITH A MAJOR IN PUBLIC HEALTH, PRE-MEDICAL PROFESSIONS CONCENTRATION

Program Director: E. Gray

The bachelor of science with a major in public health degree program is intended to convey to students technical detail and analytic skills with a liberal arts philosophical base. It has the educational objectives of nurturing critical thinking, analysis, synthesis of information, and recognizing the historical and societal associations of current trends in public health and health care delivery. While nurturing students’ capacity to think analytically and creatively, the program strives to deepen students’ commitment to improving the public’s health.

Students in the public health program may select the pre-medical professional concentration or the pre-health concentration. The pre-medical professional concentration is designed to help students fulfill the prerequisites for medical school. The public health program also may be taken without a concentration.

Visit the program website (http://publichealth.gwu.edu/programs/public-health-bs/) for additional information.

ADMISSIONS

Information on the admission process is available on the Office of Undergraduate Admissions website (https://undergraduate.admissions.gwu.edu/). Applications may be submitted via the Common Application (https://go.gwu.edu/commonapp/).

Supporting documents not submitted online should be mailed to:

Office of Undergraduate Admissions
The George Washington University
800 21st Street NW, Suite 100
Washington, DC 20052

Contact for questions: gwadm@gwu.edu or 202-994-6040

REQUIREMENTS

The following requirements must be fulfilled:

The following requirements must be fulfilled: 34 credits in BS in public health core requirements and 41 credits in pre-medical professional concentration requirements.

Additional recommended courses for students pursuing the pre-medical professional concentration can be found in SPH’s BS in public health program guide.

Students must comply with policies and procedures as outlined in University Regulations (https://bulletin.gwu.edu/university-regulations/), GWSPH Regulations (https://bulletin.gwu.edu/public-health/#regulationstext), and SPH’s program guide. Students should pay special attention to SPH requirements for completing human research training, completing eight hours of professional enhancement activities, and passing the academic integrity quiz.
