DOCTOR OF PHILOSOPHY IN THE FIELD OF EPIDEMIOLOGY

Program Director: H. Young

GW's master's and doctor of philosophy (PhD) programs prepare students to conduct epidemiological research, undertake evaluation studies, and monitor population health status in academic, governmental, private sector, and community health settings.

The programs provide students with opportunities to collaborate with experts from the National Institutes of Health, National Cancer Institute, National Center for Health Statistics, Food and Drug Administration, and many other federal research agencies. With courses scheduled in the late afternoons and early evenings, students gain valuable career experience while earning their degree. All applications are submitted through SOPHAS.org (http://sophas.org/).

Visit the program website (https://publichealth.gwu.edu/programs/epidemiology-phd/) for additional information.

ADMISSIONS

Visit the Milken Institute School of Public Health website (https://publichealth.gwu.edu/) for additional information about academic programs and information about GWSPH. Graduate admissions information, including application requirements and deadlines, can be found on the GWSPH Graduate Admissions website (https://publichealth.gwu.edu/admissions/graduate-admissions/+).

REQUIREMENTS

The following requirements must be fulfilled for the degree: 48 credits, including 5 credits in foundational courses, 18 credits in program-specific courses, at least 11 credits in elective courses, 3 credits in consulting, and at least 11 credits in dissertation research.

Graduation Requirements

1. Program options: Students may choose either curriculum Plan A or curriculum Plan B for the Doctor of Philosophy degree in the field of epidemiology.

2. Graduate credit requirement: 72 graduate credits are required.

3. Prerequisites: Review official program guide for minimum prerequisite requirements for admission.

4. Comprehensive (General) exam
   a. A written comprehensive exam will be administered within 24 months from date of matriculation based on the course content of PUBH 6247 Epidemiologic Methods I: Design of Health Studies, PUBH 6252 Epidemiologic Methods II: Advanced Epidemiologic Methods, and PUBH 8419 Measurement in Public Health and Health Services. The exam is administered once per year in August.
   b. An oral presentation of the proposal for dissertation is made to the students’ Dissertation Research Committee. The Committee will determine the student’s readiness to pursue and complete the proposed research.

5. Dissertation: 12-21 credits of dissertation research are required. Students may register for up to 6 credits of PUBH 8999 Dissertation Research prior to completion of the proposal defense.

6. Grade point requirements: An overall GPA of 3.0 (B average) is required.

7. Time limit requirement: The degree must be completed in 7 years.

8. Transfer credit policy: Up to 24 credits from an applicable master’s program may be approved to be transferred to the doctoral program. Credits must have been earned from an accredited institution with a grade point average of B or better.
