MASTER OF HEALTH ADMINISTRATION

Program Director: R. Bonar

George Washington University’s master of health administration (MHA) program trains the next generation of leaders in the healthcare industry to improve health and health systems on a local, national, and global scale. The mission of the GW master of health administration (MHA) program is to train the next generation of leaders in the healthcare industry to improve health and health systems on a local, national, and global scale. Program graduates leave ready to contribute to the improved efficacy of healthcare. They will use research and evidence to inform decisions about policies that affect diverse populations. In addition, the MHA coursework prepares students to become skilled executives in healthcare delivery systems. Attending a school situated in Washington, DC, the nation’s health policy and management epicenter, ensures graduates will become transformational leaders in healthcare.

An MHA degree incorporates coursework in business and medical informatics training, knowledge of health care systems, management theory, finance, quality, law, policy, critical values in decision-making, and much more. GW students are committed to improving healthcare and health policy and engaging in and promoting improvements in programs and services. The program emphasizes these qualities as they are essential for future leaders in healthcare delivery.

Students who graduate from GW with an MHA degree are prepared to:

• Effectively manage organizational change and promote organizational and clinical excellence.
• Manage health services organizations under alternative financing mechanisms.
• Lead and manage human resources in diverse organizational environments.
• Manage information resources to assist in effective administrative decision-making and clinical management.
• Use statistical, quantitative, and economic analyses.
• Utilize leadership skills to improve both business and clinical outcomes of health services organizations.

The only two prerequisites for matriculation in the MHA program are an undergraduate course in financial accounting and an introductory course in statistics earned with a minimum grade of B.

The following degree requirements must be fulfilled: 50 credits, including 31 credits in core courses, a 2-credit health policy selective course, 11 or 14 credits in elective courses, and 3 or 6 credits in a field experience.

Students select one of five focus areas, which require either a fellowship or a residency. The following three focus areas require 6 credits in a fellowship to fulfill the field experience requirement: information systems and financial management; operations management; and strategic management and policy. The following two focus areas require 3 credits in a residency to fulfill the requirement: acute and ambulatory care management and post-acute care management (including long-term care).

**Health policy selective**

One health policy course selected from the following:

- PUBH 6012 Fundamentals of Health Policy
- PUBH 6325 Federal Policymaking and Policy Advocacy
- PUBH 6354 Substance Use Disorder Policy
- PUBH 6356 State Health Policy
- PUBH 6367 Population Health, Public Health, and Health Reform
- PUBH 6370 Medicare/Medicaid Law and Policy
- PUBH 6374 Pharmaceutical Policy
- PUBH 6378 HIV Policy in the US
- PUBH 6399 Topics in Health Policy (Cost-Benefit Analysis in Healthcare)
- PUBH 6399 Topics in Health Policy (Maternal and Child Health Policy Analysis)
- or PUBH 6561 Maternal and Child Health Policy Analysis

**Electives**

Students whose focus area requires a fellowship (information systems and financial management; operations management; and strategic management and policy) take 11 credits in elective courses, and students whose focus area requires a residency (acute and ambulatory care management and post-acute care management, including long-term care) take 14 credits in elective courses, all selected from the following:

- HSML 6231 Management of Acute Care Hospitals
- HSML 6236 Post-Acute Care Management and Leadership
- HSML 6238 Ambulatory Care Management
- HSML 6244 Supply Chain Management in Health Services
- HSML 6246 Service Line and Project Management
- HSML 6247 Consulting in Health Care
- PUBH 6012 Fundamentals of Health Policy
- PUBH 6325 Federal Policymaking and Policy Advocacy
- PUBH 6354 Substance Use Disorder Policy
- PUBH 6356 State Health Policy
- PUBH 6367 Population Health, Public Health, and Health Reform
- PUBH 6370 Medicare/Medicaid Law and Policy
- PUBH 6374 Pharmaceutical Policy
- PUBH 6378 HIV Policy in the US
- PUBH 6399 Topics in Health Policy (Cost-Benefit Analysis in Healthcare)
- PUBH 6399 Topics in Health Policy (Maternal and Child Health Policy Analysis)
- or PUBH 6561 Maternal and Child Health Policy Analysis

**Field experience**

Completion of either a fellowship or residency, depending on the chosen focus area.

**Fellowship**—Students whose focus area requires a fellowship take the following two courses for a total of 6 credits:

- HSML 6274 Fellowship
- HSML 6275 Fellowship

**Residency**—Students whose focus area requires a residency take the following 3-credit course:

- HSML 6271 Residency

*Only specific topics indicated for PUBH 6399 count toward this requirement.

**Graduation Requirements**

1. Graduate Credit Requirement: 50 graduate credits are required.
2. Grade Point Requirement: A 3.0 (B average) overall grade-point average is required.
3. Time Limit Requirement: The degree must be completed within five years.
4. Transfer Credit Policy: Up to 12 graduate credits that have not been applied to a previous graduate degree may be transferred to the MHA, upon approval. Credits must have been earned from a CAHME accredited institution in the last three years with a grade-point average of 3.0 or above.
5. Transfer to Degree Program Policy: Up to 18 credits may be transferred to the MHA from the Health Administration Generalist Certificate. Students wishing to transfer to a degree program may apply to do so via the online change of concentration petition after completion of three or more courses and a cumulative GPA of 3.0 or above. A grade of B or above is required for a course to be eligible for transfer. Students interested in applying to an MHA degree program should meet with the program director regarding program-specific admission requirements. Transfer credits must have been completed within the past three years.
6. Residency or Internship Requirement: Successful completion of a 6 credit residency or 3-credit internship.
COMBINED PROGRAM

Combined program

• Dual Master of Health Administration and Graduate Certificate in health care corporate compliance (https://bulletin.gwu.edu/public-health/mha-corporate-compliance-certificate/)
