

MASTER OF PUBLIC HEALTH: MPH@GW

Program Director: G. Gray

The MPH@GW program trains aspiring public health leaders to make a difference in local, national, and global communities. The MPH@GW is delivered completely online, offering the same world-class faculty, admissions requirements, and academic standards as GW's on-campus MPH programs.

MPH@GW students:

- Establish connections with influential public health educators and practitioners who are on the front lines of policy and advocacy in Washington, DC.
- Learn to respond to the growing public health needs of their communities, and society at large, through analytical research and in-person practicums at well-established health organizations.
- Have the opportunity to customize their curriculum, through general electives or by selecting a concentration focus, to reflect specific public health interests and aspirations.
