

MASTER OF ARTS IN THE FIELD OF AMERICAN STUDIES

Housed in the Columbian College of Arts and Sciences, American studies at GW is one of the nation's most rigorous and innovative programs. With a core of eleven full-time and nine affiliated and associated faculty members, the program emphasizes interdisciplinary cultural analysis with approaches from anthropology, geography, political theory, history, architectural history, art history, folklife, performance studies, English, and media studies. The department's particular strengths are in cultural history and cultural studies, art and culture, race and ethnicity, gender and sexuality, transnational American studies, urban studies of space and place, political and public cultures, and religion.

Students in the master's program can pursue a general degree in American studies or a concentration in museums and material culture. The general program prepares students for advanced work at the PhD level. The museums and material culture concentration, which draws on the department's interdisciplinary strengths in the analysis of culture, provides pre-professional training with strong links to pertinent DC cultural resource management institutions, including the Smithsonian Institution. Both programs stress professional-level research and writing skills.
