

BACHELOR OF ARTS WITH A MAJOR IN ARCHAEOLOGY (STEM)

Archaeology majors at GW study a variety of subjects within the field, ranging from sociocultural anthropology, human cultural beginnings, and the archaeology of Africa to the classical Mediterranean, Middle East, and Mesoamerica. Students are exposed to the latest field and laboratory techniques and can take part in excavations at sites around the world. They also benefit from the DC area’s incredible resources, including the Smithsonian Institution and Dumbarton Oaks, a leading museum and research center of Mesoamerican, Andean, and Byzantine studies. Graduates go on to careers in archaeology, education, publishing, international development and world heritage conservation, cultural heritage management, museums, cultural heritage law, library sciences, and forensic sciences.

This is a STEM designated program.

Visit the program website (<https://anthropology.columbian.gwu.edu/ba-archaeology/>) for more information.

REQUIREMENTS

The bachelor of arts with a major in archaeology is an interdepartmental program offered by the Department of Anthropology (<http://anthropology.columbian.gwu.edu/>) in cooperation with the Department of Arts and Art History (<http://art.gwu.edu/>) and the Department of Classical and Near Eastern Languages and Civilizations (<https://cnelc.columbian.gwu.edu/>).

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

Program-specific curriculum:

Code	Title	Credits
Language requirement		
Students must complete two years or demonstrate equivalent skill in one of the following foreign languages: Arabic, French, German, Greek, Hebrew, Italian, or Latin. Students should consult with their Archaeology advisor to petition to use other languages.		
Students whose preparation allows them to waive this requirement are encouraged to begin study of a second language. Graduate study in archaeology usually requires knowledge of two or more languages besides English. Students planning to pursue advanced study should consult with an advisor early in their program.

GENERAL EDUCATION

In addition to the University General Education Requirement (<http://bulletin.gwu.edu/university-regulations/general-education/>), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication (G-PAC) (<https://advising.columbian.gwu.edu/general-education-curriculum-gpac/>) as well as the course CCAS 1001 First-Year Experience. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Coursework (<http://bulletin.gwu.edu/university-regulations/general-education/#generaleducationtext>) for the University General Education Requirement is distributed as follows:

- One course in critical thinking in the humanities.
- Two courses in critical thinking, quantitative reasoning, or scientific reasoning in the social sciences.
- One course that has an approved oral communication component.
- One course in quantitative reasoning (must be in mathematics or statistics).
- One course in scientific reasoning (must be in natural and/or physical laboratory sciences).

- UW 1020 University Writing
- After successful completion of UW 1020, 6 credits distributed over at least two writing in the discipline (WID) courses taken in separate semesters. WID courses are designated by a "W" appended to the course number.

Coursework for the CCAS G-PAC requirement is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or cross-cultural perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Local or civic engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or physical science—one additional approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Humanities—one additional approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- CCAS 1001 First-Year Experience

Certain courses are approved to fulfill GPAC requirements in more than one category.

Courses taken in fulfillment of G-PAC requirements can also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University can count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

Lists of approved courses in the above categories are included on each undergraduate major's (<http://bulletin.gwu.edu/arts-sciences/#majorstext>) page in this Bulletin.

SPECIAL HONORS

For Special Honors in anthropology, archaeology, or biological anthropology, a major must meet the special honors requirements stated under University Regulations (<http://bulletin.gwu.edu/university-regulations/>), have a grade-point average of 3.5 or better in courses required for the major, register for 3 credits of ANTH 3995 Undergraduate Research and write a paper of special distinction arising out of a program of directed reading or research. Students must confer with an advisor before beginning the work.

COMBINED PROGRAM
