

MINOR IN PHOTOGRAPHY

The minor in photography offers a structured and in-depth path to students who want to pursue deeper learning in fine art photography or photojournalism as a complement to their major field of study. Students who combine their majors with a minor in photography leave GW better prepared to work in the arts or media and, most importantly, able to understand the role of visual representation as it relates to their careers in any field.

Visit the program website (<https://corcoran.gwu.edu/photography-minor-undergraduate/>) for additional information.
