

MASTER OF ARTS IN THE FIELD OF EUROPEAN AND EURASIAN STUDIES

Across Europe and Eurasia, powerful forces are pushing for political, social, and economic change. EU member states and their neighbors confront a host of domestic challenges ranging from economic reform and social diversity to terrorism and separatism. Russia and other members of the Commonwealth of Independent States stand at different points along the path of transition from communism to new political institutions. At the same time, a web of political, economic, security, and societal connections increasingly links the various parts of Europe and Eurasia with one another and other parts of the global community. In view of these dynamic interactions, it is essential to study Europe and Eurasia together.

The European and Eurasian studies graduate program at the Elliott School provides an interdisciplinary curriculum combining several required courses with a wide variety of additional courses and optional fields that can be selected to suit an individual student's professional goals and intellectual interests.

The European and Eurasian Studies program is supported by the Institute for European, Russian, and Eurasian Studies and benefits from the expertise of its faculty members, who are prominent practitioners and scholars in disciplines including political science, economics, and history, with important representation from languages and literature, film studies, anthropology, sociology, and public policy.

Visit the program website (<https://elliott.gwu.edu/european-and-eurasian-studies/>) for additional information.
