

GRADUATE CERTIFICATE IN CORRECTIONAL HEALTH ADMINISTRATION

This certificate program provides a solid foundation for individuals seeking a career in correctional healthcare administration and valuable training for current correctional healthcare administrators seeking career advancement. Healthcare administrators are the key managers for ensuring the effective delivery of health care to these incarcerated patient populations. Capable correctional healthcare administration results in improved clinical outcomes for patients, more prudent allocation of limited healthcare resources and safer jails and prisons.

Visit the program website (<https://smhs.gwu.edu/correctional-health-administration/programs/graduate-certificate/>) for additional information.
