

DUAL BACHELOR OF SCIENCE IN HEALTH SCIENCES WITH A MAJOR IN CLINICAL RESEARCH ADMINISTRATION AND MASTER OF SCIENCE IN HEALTH SCIENCES IN THE FIELD OF BIOMEDICAL INFORMATICS

The School of Medicine and Health Sciences offers a dual bachelor of science in health sciences with a major in clinical research administration (<https://bulletin.gwu.edu/medicine-health-sciences/undergraduate-programs/bshs-clinical-research-administration/>) and master of science in health sciences in the field of biomedical informatics (<https://bulletin.gwu.edu/medicine-health-sciences/graduate-programs/mshs-biomedical-informatics/>) degree program. The program allows students to take 9 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

The 9 graduate credits students take in lieu of undergraduate electives are:

Code	Title	Credits
INFR 6101	Principles of Medical Informatics	
HSCI 6223	Topics in Health Care Leadership	
HSCI 6240	Issues and Trends in the Health Care System	

Visit the School of Medicine and Health Sciences website (<https://smhs.gwu.edu/>) for additional information.
