

DUAL BACHELOR OF SCIENCE WITH A MAJOR IN NUTRITION AND MASTER OF PUBLIC HEALTH

The Milken Institute School of Public Health offers a dual bachelor of science with a major in nutrition (<https://bulletin.gwu.edu/public-health/exercise-science/bs-nutrition/>) and any master of public health (<https://bulletin.gwu.edu/public-health/#graduatetext>) (MPH) degree program. The program allows students to take 12 credits in graduate-level courses during their undergraduate program. The credits are counted toward both degrees, thereby decreasing the number of credits normally required for the master's. All requirements for both degrees must be fulfilled.

Code	Title	Credits
------	-------	---------

Credit sharing: 12 credits

For each MPH course taken in the dual degree program, the corresponding undergraduate course cannot be used to waive a BS in nutrition guided elective. For example, if a student takes PUBH 6003 as a shared course, they cannot take PUBH 3131 and count it as a guided elective.

PUBH 6002	Biostatistical Applications for Public Health	
-----------	---	--

Waived: PUBH 2142 Introduction to Biostatistics for Public Health *

PUBH 6003	Principles and Practices of Epidemiology	
-----------	--	--

Waived: One BS in nutrition guided elective, excluding PUBH 3131.

PUBH 6007	Social and Behavioral Approaches to Public Health	
-----------	---	--

Waived: One BS in nutrition guided elective, excluding PUBH 2112.

PUBH 6011	Environmental and Biological Foundations of Public Health	
-----------	---	--

Waived: One BS in nutrition guided elective, excluding PUBH 3132.

PUBH 6021	Essentials of Public Health Practice and Leadership I **	
-----------	--	--

*PUBH 2142 fulfills the BS in nutrition core curriculum requirement in statistics.

**For PUBH 6021, no specific undergraduate course is waived. The 2 credits earned in PUBH 6007 plus the 1 credit earned in PUBH 6021 waive a 3-credit BS in nutrition elective.
